Such information creates your awareness about principal trends of Jardine Matheson Holdings Ltd. business.

### **About Jardine Matheson Holdings Ltd.**

Jardine Matheson Holdings Limited, through its subsidiaries, engages in engineering and construction, transport services, insurance broking, property investment and development, retailing, restaurants, luxury hotels, motor vehicles and related activities, financial services, heavy equipment, mining and agribusiness principally in Asia.

The company's interests include Jardine Pacific, Jardine Motors Group, Jardine Lloyd Thompson, Hongkong Land, Dairy Farm, Mandarin Oriental, Jardine Cycle & Carriage, and Astra International. It also has a minority investment in Rothschilds Continuation, the merchant banking house.

#### **Jardine Pacific**

Jardine Pacific is a holding company with a select portfolio representing the company's non-listed Asian businesses, principally in transport services, engineering and construction, restaurants and IT services.

#### **Jardine Motors Group**

Jardine Motors Group engages in the distribution, sales and service of motor vehicles in Hong Kong, Macau and the United Kingdom, and with a presence in mainland China.

#### Jardine Lloyd Thompson

Jardine Lloyd Thompson is an insurance broker, risk management adviser and employee benefit services provider, combining skills in the London insurance market with an international network.

#### Hongkong Land

Hongkong Land is a listed property group with approximately 5 million square feet of commercial property in central Hong Kong and further commercial and residential developments in Asia.

#### Dairy Farm

Dairy Farm is a pan-Asian retail group operating approximately 4,700 outlets, including supermarkets, hypermarkets, health and beauty stores, convenience stores, home furnishings stores and restaurants.

#### Mandarin Oriental

Mandarin Oriental is an international hotel investment and management group with a portfolio of 41 deluxe hotels and resorts worldwide, including 18 under development.

#### Jardine Cycle & Carriage

Jardine Cycle & Carriage is a Singapore-listed holding company with an interest of approximately 50% in the listed Indonesian conglomerate, Astra International, and motor trading interests in Southeast Asia. In July 2008, Jardine Cycle & Carriage acquired a 20% interest in Truong Hai Automotive Corporation, a Vietnamese group with interests in the manufacture, sale and maintenance of commercial vehicles and passenger cars.

#### Astra International

Astra International is an Indonesian motor group, manufacturing, assembling and distributing motor vehicles and components in partnership with Toyota and Honda.

Astra's financial services businesses consist of consumer finance (principally automobile and motorcycle), insurance and a 45% interest in Bank Permata. Astra's other interests include heavy machinery; mining contracting; oil palm plantations; and distribution of office automation products and IT services.

### Rothschilds Continuation

Rothschilds Continuation is a holding company within the Rothschild group with various financial services interests, including the investment bank N M Rothschild & Sons, which has approximately 50 offices in approximately 37 countries worldwide.

### Tata Industries

The company holds a 20% shareholding in Tata Industries, which is an unlisted Indian investment company. Tata Industries' primary investment is in Tata Teleservices, a primarily mobile service provider in the Indian telecom sector.

### History

Jardine Matheson Holdings Limited was founded in 1832.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
