Abstracts

JB Hunt Transport Services Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between JB Hunt Transport Services Inc. and its competitors. This provides our Clients with a clear understanding of JB Hunt Transport Services Inc. position in the [Railroads and Trucking Services](#) Industry.

The report contains detailed information about JB Hunt Transport Services Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for JB Hunt Transport Services Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The JB Hunt Transport Services Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios

pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes JB Hunt Transport Services Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of JB Hunt Transport Services Inc. business.

About JB Hunt Transport Services Inc.

J.B. Hunt Transport Services, Inc., together with its subsidiaries, operates as a surface transportation company in North America. The company also provides customized freight movement, revenue equipment, labor and systems services that are tailored to meet individual customer's requirements and typically involve longer-term contracts. These arrangements include multiple pickups and drops, local and home deliveries, freight handling, specialized equipment and freight network design.

The company also provides integrated capacity and transportation and logistics services and solutions by utilizing a network of third-party carriers. While these unrelated outside carriers, at times, supplement its dry-van, full-load operations, they also provide flatbed, refrigerated, less-than-truckload (LTL) and other specialized equipment, drivers and services.

Segments

The company's business operations are primarily organized through four business segments, including Intermodal (JBI), Dedicated Contract Services (DCS), Full-Load Dry-Van (JBT) and Integrated Capacity Solutions (ICS).

JBI Segment

The transportation service offerings of its JBI segment utilize arrangements with North American rail carriers to provide intermodal freight solutions for its customers throughout the continental United States, Canada and Mexico. The company provides the drayage service at either the origin or destination rail ramp utilizing its company-owned tractors for the majority of its intermodal loads, but utilizes third parties where economical. JBI operates 40,170 company-controlled containers systemwide. JBI also manages a fleet of 2,303 company-owned tractors and 2,780 company drivers.

DCS Segment

DCS offers transportation services that generally are not provided by common truckload carriers or intermodal due to strict service requirements, specialized equipment, and intense driver and delivery personnel demands. The company's operations are managed on site by transportation professionals who work in concert daily with the customer and its drivers. As of December 31, 2009, this segment operated 3,969 company-controlled trucks, 358 customer-owned trucks, and 31 independent contractor trucks.

JBT Segment

The JBT Segment offers full-load, dry-van freight, utilizing tractors operating over roads and highways. The company typically picks up freight at the dock or specified location of the shipper and transports the load directly to the location of the consignee. As of December 31, 2009, the JBT segment operated 1,698 company-owned tractors.

ICS Segment

ICS provides non-asset, asset-light, and transportation logistics solutions to customers through relationships with third-party carriers and integration with JBHT-owned equipment. By leveraging the JBHT brand, systems and network, ICS brings a service offering to customers by providing flatbed, refrigerated, expedited and LTL, as well as various dry-van and intermodal solutions.

Marketing and Operations

The company transports, or arranges for the transportation of, a range of freight,

including general merchandise, specialty consumer items, appliances, forest and paper products, food and beverages, building materials, soaps and cosmetics, automotive parts, electronics, and chemicals. The company's customer base includes Fortune 500 companies.

History

J.B. Hunt Transport Services, Inc. was founded in 1961.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
