The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of John Wiley & Sons Inc. business.

### **About John Wiley & Sons Inc.**

John Wiley & Sons, Inc. operates as a publisher of print and electronic products, providing content and digital solutions to customers worldwide.

### **CORE BUSINESSES**

The company's core businesses produce the scientific, technical, medical, and scholarly journals, encyclopedias, books, online products, and services; professional and consumer books, subscription products, certification, and training materials, online applications and Web sites; and educational materials in all media, including integrated online teaching and learning resources.

#### **Scientific, Technical, Medical, and Scholarly (STMS)**

The company is a publisher for the scientific, technical, medical and scholarly communities worldwide, including academic, corporate, government, and public libraries; researchers; scientists; clinicians; engineers and technologists; scholarly and professional societies; and students and professors. STMS products include journals, books, major reference works, databases, and laboratory manuals. STMS publishing areas include the physical sciences, health sciences, social science, and humanities

and life sciences. The company's STMS products are sold and distributed globally, online and in print through multiple channels, including research libraries and library consortia, independent subscription agents, direct sales to professional society members, bookstores, online booksellers and other customers. Publishing centers include Australia, Germany, Singapore, the United Kingdom, and the United States.

The company publishes the journals of various societies, including the American Cancer Society, the British Journal of Surgery Society, the Federation of European Biochemical Societies, the European Molecular Biology Organization, the American Anthropological Association, and the German Chemical Society.

STMS provides evidence-based medicine (EBM). EBM facilitates the management of patients through clinical expertise informed by practice evidence that is derived from medical literature. It intends to launch Wiley Online Library, which would host the multidisciplinary collection of online resources covering life, health and physical sciences, medicine, humanities, and social science. Wiley Online Library would completely replace Wiley InterScience, the company's online publishing platform for its scientific, technical, medical, and scholarly content.

Access to Wiley Online Library and Wiley InterScience is sold through licenses with institutional and corporate libraries, consortia and other academic, government, and corporate customers. The company offers a range of licensing options, including customized suites of journal publications for individual customer needs, as well as subscriptions for individual journal and online book publications.

### Professional/Trade

The company's Professional/Trade business acquires, develops, and publishes books, subscription products and information services in media, in the subject areas of business, technology, architecture, cooking, psychology, education, travel, health, religion, consumer reference, pets, and general interest. Products are developed for worldwide distribution through multiple channels, including chains and online booksellers, independent bookstores, libraries, colleges and universities, warehouse clubs, corporations, direct marketing, and Web sites. The company's Professional/Trade customers are professionals, consumers, and students worldwide. Publishing centers include Australia, Canada, Germany, Singapore, the United Kingdom, and the United States.

The company's Professional/Trade brands include the For Dummies series, the

Frommer's and Unofficial Guide travel series, the Bible and Visual technology series, the CliffsNotes study guides, Webster's New World dictionaries, and Betty Crocker and Weight Watchers cookbooks.

Professional/Trade alliance partners include General Mills, the Culinary Institute of America, Bloomberg Press, the American Institute of Architects, the Graduate Management Admission Council, the Leader to Leader Institute, Fisher Investments, Meredith Corporation, and Weight Watchers.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
