## Abstracts

KEMET Corp. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between KEMET Corp. and its competitors. This provides our Clients with a clear understanding of KEMET Corp. position in the [Computers and Electronic Equipment](#) Industry.

The report contains detailed information about KEMET Corp. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for KEMET Corp.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The KEMET Corp. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your

company's decision-making processes.

In the part that describes KEMET Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of KEMET Corp. business.

### **About KEMET Corp.**

KEMET Corporation is a manufacturer of a variety of capacitors. The company's product offerings include tantalum, multilayer ceramic, solid and electrolytic aluminum, and film and paper capacitors.

The company manufactures a line of capacitors in different sizes and configurations using various raw materials. The company's product line consists of approximately 250,000 distinct part configurations distinguished by various attributes, such as dielectric (or insulating) material, configuration, encapsulation, capacitance level and tolerance, performance characteristics and packaging. In year 2010, the company shipped approximately 31 billion capacitors.

### **Segments**

The company is organized into three distinct business groups: Tantalum, Ceramic, and Film and Electrolytic.

#### **Tantalum Business Group**

Tantalum Business Group is a manufacturer of solid tantalum and aluminum capacitors. The company's product portfolio, industry process and materials technology, global

manufacturing base and delivery capabilities allow it to serve a range of customers in a group of end markets, including computing, telecommunications, consumer, automotive, and general industries. This business group operates five manufacturing sites in Portugal, Mexico and China.

### Ceramic Business Group

The company's Ceramic Business Group offers a line of multilayer ceramic capacitors in various sizes and configurations. The company's markets include medical, industrial, defense, and aerospace. Its other significant end markets include computing, telecommunications, aerospace & defense, automotive and general industries.

### Film and Electrolytic Business Group

The company's Film and Electrolytic Business Group produces film, paper and wet aluminum electrolytic capacitors. The Film and Electrolytic Business Group primarily serves the industrial, automotive, consumer and telecom markets. It operates 13 film and electrolytic manufacturing sites throughout Europe and Asia.

### Markets and Customers

The company's products are sold to various original equipment manufacturers (OEMs) in a range of industries, including the computer, communications, automotive, military, consumer, industrial, and aerospace industries. The company also sells products to Electronic Manufacturing Service (EMS) providers, which also serve OEMs in these industries.

### Competition

The company's competitors include AVX Corporation, EPCOS AG, Matsushita Electric Industrial Company, Ltd. (Panasonic), Murata Manufacturing Co., Ltd., NEC TOKIN Corporation, Sanyo Electric Co., Ltd., TDK Corporation, Taiyo Yuden Co., Ltd., TDK Corporation, WIMA GmbH & Co., KG and Vishay.

### History

KEMET Corporation was founded in 1919.

The above Company Fundamental Report is a half-ready report and contents are

subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
