The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Kimberly-Clark Corporation business.

## **About Kimberly-Clark Corporation**

Kimberly-Clark Corporation engages in manufacturing and marketing of health products. The company focuses its activities in Asia, Latin America, the Middle East, and Eastern European countries.

### **Segments**

The company's operations are aggregated into four global business segments: Personal Care; Consumer Tissue; K-C Professional & Other; and Health Care.

#### **Personal Care segment**

The Personal Care segment manufactures and markets disposable diapers, training and youth pants, and swimpants; baby wipes; feminine and incontinence care products; and related products. Products in this segment are primarily for household use and are sold under various brand names, including Huggies, Pull-Ups, Little Swimmers, GoodNites, Kotex, Lightdays, Depend, Poise, and other brand names.

#### **Consumer Tissue segment**

The Consumer Tissue segment manufactures and markets facial and bathroom tissue, paper towels, napkins, and related products for household use. Products in this segment are sold under the Kleenex, Scott, Cottonelle, Viva, Andrex, Scottex, Hakle, Page, and other brand names.

#### K-C Professional & Other segment

The K-C Professional & Other segment manufactures and markets facial and bathroom tissue, paper towels, napkins, wipers, and a range of safety products for the away-from-home marketplace. Products in this segment are sold under the Kimberly-Clark, Kleenex, Scott, WypAll, Kimtech, KleenGuard, Kimcare, and Jackson brand names.

#### Health Care segment

The Health Care segment manufactures and markets disposable health care products, such as surgical drapes and gowns, infection control products, face masks, exam gloves, respiratory products, pain management products, and other disposable medical products. Products in this segment are sold under the Kimberly-Clark, Ballard, ON-Q, and other brand names.

#### Significant Events

##### Acquisitions

The company, in the year 2009, acquired the approximate 31 percent interest in its Andean region subsidiary, Colombiana Kimberly Colpapel S.A.

The company, in the year 2009, acquired Jackson Products, Inc., a privately-held safety products company.

The company, in the year 2009, acquired Baylis Medical Company's pain management business.

The company, in the year 2009, acquired I-Flow Corporation, a healthcare company that develops and markets drug delivery systems and products for post-surgical pain relief and surgical site care.

#### Customers

The company's products for household use are sold directly, and through wholesalers, to supermarkets, mass merchandisers, drugstores, warehouse clubs, variety and department stores and other retail outlets. Products for away-from-home use are sold through distributors and directly to manufacturing, lodging, office building, food service, health care establishments and high volume public facilities. In addition, certain products are sold to converters.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
