Abstracts

Klondike Star Mineral Corp. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Klondike Star Mineral Corp. and its competitors. This provides our Clients with a clear understanding of Klondike Star Mineral Corp. position in the Industry.

The report contains detailed information about Klondike Star Mineral Corp. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Klondike Star Mineral Corp.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Klondike Star Mineral Corp. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Klondike Star Mineral Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Klondike Star Mineral Corp. business.

About Klondike Star Mineral Corp.

Klondike Star Mineral Corp. engages in the exploration and development of mineral properties in Yukon, Canada; and the Western Desert region of the Arab Republic of Egypt.

Properties

The company has five active gold projects totaling about 290 square kilometers or 112.4 square miles in the Yukon, located in the northwest corner of Canada underlying the site Klondike gold producing region; and one gold, iron, and multi-mineral project totaling 1,245 square kilometers or 481 square miles in the Arab Republic of Egypt.

Lone Star Gold Project – Advanced Exploration Stage

Lone Star is an advanced-stage gold exploration project. It comprises 719 mineral claims and crown grants totaling 135.1 square kilometers (52.2 square miles) in the gold-producing Klondike region of Yukon, Canada. Lone Star has nine known exploration targets, including the Lone Star Zone, the Nugget Zone, the Buckland Zone, the JF Zone, the Pioneer Zone, and the 27-Pup-Dysle-Veronika Zone.

Indian River Gold Project – Pre-Development Exploration Stage

The Indian River Project is a pre-development exploration stage placer gold property. It is located 40 kilometers or 24.9 miles from Dawson City, Klondike gold-producing region of the Yukon, Canada. The Indian River Project consists of 223 mineral claims plus 3 leases totaling 21.1 square kilometers or 8.2 square miles. The Indian River holds 100% right, title, and undivided interest in 194 placer mining claims and 3 leases; and a 49% interest in an additional 29 placer claims.

Dominion Gold and Silver Project - Klondike, Yukon, Canada

A gold and silver exploration project at the headwaters of Dominion Creek, the Dominion Project includes an exploration-stage target at the J.A.E. claims, as well as an area with little previous exploration. The property comprises 331 mineral claims involving an area of 61.3 square kilometers or 24.3 square miles, including the Mitchell Zone, Sheba Zone, Dome Lode, and Lloyd Zone.

Klondike Star holds 100% ownership of 149 mineral claims, 55% ownership of 95 claims with an option to acquire 75%, and an option to purchase 100% of 85 claims.

Oweinat Gold and Iron Ore Project

The company's wholly owned subsidiary Klondike Star Canada Inc. was awarded a concession by the Arab Republic of Egypt and the Egyptian Mineral Resources Authority to explore and exploit a gold property and other associated minerals, including iron ore. Known as the Oweinat Project, the property encompasses a 1,245 square kilometers or 482 square miles block in the Oweinat Area of the Western Desert, Arab Republic of Egypt.

OTHER EXPLORATION PROPERTIES - Yukon, Canada

Spice Project: As of November 30, 2007, the Spice Project consisted of 52 mineral claims totaling 10.9 square kilometers (4.2 square miles). The property is located 28 km east of Ross River and 8 kilometers south of the North Canol Road in the Watson Lake Mining District, Yukon, Canada.

Ultra Project: The property is located in southwest Yukon, 42 km (26.1 miles) northwest of Haines Junction, Yukon, Canada, only 140 km (87 miles) from a deepwater port. The Ultra Project consists of 404 mineral claims and totaling an area of 82 square kilometers

(31.7 square miles). The targets include VMS zinc-copper-silver-gold and poly-metallic nickel-copper-platinum-palladium-gold.

Bonanza Project: The company holds controlling interest in 269 mineral claims in the Klondike region of the Yukon, Canada. It comprises 400 mineral claims and an area of 65.6 square kilometers or 25.3 square miles.

Indian River Quartz Project: The property is located 40 kilometers (24.9 miles) from Dawson City of the Yukon and the Tintina Gold Belt spanning Alaska and the Yukon. The company has 179 mineral claims and a total area of 62.1 square kilometers or 24.0 square miles.

Eldorado Placer Project: The Eldorado Placer Project is located 20 km from Dawson City, Yukon, Canada. It has 115 mineral claims and a total area of 6.9 square kilometers or 2.7 square miles.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
