## Abstracts

Lake Shore Gold Corp. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Lake Shore Gold Corp. and its competitors. This provides our Clients with a clear understanding of Lake Shore Gold Corp. position in the Industry.

The report contains detailed information about Lake Shore Gold Corp. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Lake Shore Gold Corp.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Lake Shore Gold Corp. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Lake Shore Gold Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Lake Shore Gold Corp. business.

### **About Lake Shore Gold Corp.**

Lake Shore Gold Corp., a mineral development and exploration company, engages in the exploration and development of gold properties in Northern Ontario and Quebec.

#### Properties

**Timmins Mine project:** The company owns 100% interest in Timmins Mine project is located north of the Porcupine-Destor Fault Zone, 18 kilometers west of the city of Timmins. The Timmins Mine deposit is a gold discovery west of the north-south trending Mattagami River Fault. The project reserve estimate (probable category) totals 3.4 million tonnes at 7.59 grams per tonne containing 0.83 million ounces on a cut basis.

**Bell Creek Properties:** The company owns the Bell Creek Mill located on the east side of Timmins. The mill has a capacity of processing 800 tonnes per day. The Bell Creek Mill is a conventional CIP gold circuit, involving crushing and grinding, gravity and leaching for gold recovery, producing dore bars for shipment. The mill also includes associated buildings and surface infrastructure, offices and an approved tailings area. The company also owns Bell Creek mine.

**Schumacher/Vogel Properties:** The company owns 100% of a mining lease on the

Vogel property. The property consists of one patented 'Vet Lot' covering 64 hectares and lies contiguous to Lake Shore Gold's Schumacher and Bell Creek properties to the west and Goldcorp's Hoyle Pond mine property to the east.

Thunder Creek: The company has a 60% interest in the Thunder Creek property. A joint venture is being established with West Timmins Mining Inc., with Lake Shore Gold as the operator, and with all work funded on a 60/40 pro-rata basis (60% being the company's share). The Thunder Creek property consists of 58 claim units, contiguous to and southwest of the company's 100% owned and operated Timmins project.

Blakelock: The company's 100% owned Blakelock property is located 140 kilometers northeast of Timmins and covers an area of 35 kilometers along the western extension of the Casa Berardi gold belt.

Casa Berardi: The company has a 50% earn-in right on the Casa Berardi property, as provided in a joint venture agreement with Aurizon Mines Ltd. The optioned property lies to the east and west of Aurizon's wholly owned Casa Berardi mining operations, including the West Mining Complex and East Mine and Mill Complex. It has completed 12 diamond drill holes for a total of approximately 4,470 meters.

Ti-pa-haa-kaa-ning: The company has entered into a 50/50 joint venture agreement with Northern Superior Resources Inc. for gold exploration on its Ti-pa-haa-kaa-ning property in northwestern Ontario.

### Strategic Alliances

The company has entered into a strategic alliance with Hochschild Mining plc (Hochschild) pursuant to which an affiliate of Hochschild acquired 35% of the outstanding shares of the company.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
