The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Laporte Bancorp, Inc. business.

About Laporte Bancorp, Inc.

LaPorte Bancorp, Inc. operates as the bank holding company for The LaPorte Savings Bank, which provides various banking services, including various deposit and loan products, as well as trust and investment services to individuals and small businesses in its market area. The company is a subsidiary of LaPorte Savings Bank, MHC.

Market Area

The company operates from eight full-service locations in LaPorte and Porter Counties, Indiana. It offers various deposit and loan products to individuals and small businesses, which are located in its primary market of LaPorte County, Indiana.

Lending Activities

As of December 31, 2009, the company's loan portfolio included real estate loans, including one- to four-family loans, five or more family loans, commercial loans, construction loans, and land loans; and consumer and other loans, including home equity loans, commercial loans, and automobile and other loans.

One- to Four-Family Residential Loans: The company's one- to four-family residential

mortgage loans are secured by the local properties. The majority of the one- to four-family residential mortgage loans it originates are conventional, but it also offers FHA and VA loans. It also offers adjustable rate mortgage loans with fixed terms of 1, 3, 5, 7 or 10 years.

Mortgage Warehouse Lending: The company under mortgage warehousing lending line of business provides financing to approved mortgage companies for the origination and sale of residential mortgage loans.

Commercial Real Estate Loans: The company's commercial real estate loans are secured by retail, industrial, warehouse, service, medical, and other commercial properties. It originates both fixed- and adjustable-rate commercial real estate loans.

Construction and Land Loans: The company's mortgage construction loans are made for the construction of residential properties and carry fixed rates. It also makes loans to builders and developers on speculation to finance the construction of residential property. It makes commercial land development and residential land loans. The company makes construction loans for commercial development projects, such as multi-family, apartment, and small retail and office buildings. It also makes loans to builders and developers for the development of one- to four-family lots in its market area.

Commercial Loans: Commercial credit is offered primarily to small business customers for asset acquisition, business expansion, or working capital purposes.

Home Equity Loans and Lines of Credit: The company originates fixed and variable rate home equity loans and variable rate home equity lines of credit secured by a lien on the borrower's residence.

Consumer and Other Loans: The company offers various loans that are either unsecured or secured by property other than real estate. These loans include loans secured by deposits, recreational vehicles or boats, personal and bond loans, and indirect and direct automobile loans.

Investment Portfolio

As December 31, 2009, the company's investment portfolio included the U.S. treasury and federal agency; state and municipal securities; mortgage-backed securities; government agency sponsored collateralized mortgage obligations; privately held collateralized mortgage obligations; corporate debt securities; and Fannie Mae and

Freddie Mac preferred stock.

Deposits

The bank's various deposit products include savings accounts, health savings accounts, NOW accounts, checking accounts, money market accounts, certificates of deposit, and IRAs. It also provides commercial checking accounts for businesses.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
