## **Abstracts**

Larsen & Toubro Ltd. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Larsen & Toubro Ltd. and its competitors. This provides our Clients with a clear understanding of Larsen & Toubro Ltd. position in the [Engineering and Construction Services](#) Industry.

The report contains detailed information about Larsen & Toubro Ltd. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Larsen & Toubro Ltd.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Larsen & Toubro Ltd. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Larsen & Toubro Ltd. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Larsen & Toubro Ltd. business.

### **About Larsen & Toubro Ltd.**

Larsen & Toubro Limited operates as a technology, engineering, construction, and manufacturing company worldwide.

#### **Divisions**

The company's divisions include Engineering and Construction Projects (E&C), Heavy Engineering (HED), Engineering Construction and Contracts (ECC), Electrical and Electronics (EBG), Machinery and Industrial Products (MIPD), and Information Technology and Engineering Services.

#### **Engineering and Construction Projects (E&C)**

Engineering, Construction, and Contracts division undertakes engineering design and construction of infrastructure and industrial projects, including civil, mechanical, electrical, and instrumentation engineering. The Division has secured orders from international clients in Malaysia, the United States, the United Kingdom, Brazil, Saudi Arabia, the United Arab Emirates, Qatar, Bangladesh, and Sri Lanka. The customer profile includes names, such as Samsung, Chevron, Bechtel, Kvaerner, Pirelli, Siam Michelin, and Goodyear.

## Heavy Engineering (HED)

Heavy Engineering division manufactures and supplies custom designed and engineered critical equipment and systems to the needs of core-sector industries and the defense sector. It is the preferred supplier of equipment for a select range of products, globally. The Division has entered into Shipbuilding business and engages in construction of speciality commercial vessels and warships for the navy, as well as the coast guard.

## Engineering Construction and Contracts (ECC)

The Engineering Construction & Contracts division delivers engineering, procurement, and contract solutions in the oil and gas, petrochemicals, power, and water space industries.

## Electrical and Electronics (EBG)

Electrical and Electronic division offers solutions in low & medium voltage categories. Its businesses consists of switchgear, switchboards for different applications, including marine, meters, automation systems, petroleum dispensing pumps, medical equipment and tooling solutions. The division has operations at different locations in India (two in Mumbai and one each in Ahmednagar, Mysore, Faridabad and Coimbatore) and one unit for manufacturing operations in China.

## Machinery and Industrial Products (MIPD)

Machinery and Industrial Products division offers a range of industrial machinery and products that are designed and developed in-house or are manufactured in partnership with others. It offers construction & mining equipment.

## Information Technology and Engineering Services

Information and Technology Services division offers e-Engineering solutions, including product design and engineering analysis, engineering process support, production and plant engineering, asset information management, and design automation to high end technology verticals, such as automotive, aerospace, marine and ship design, plant engineering, and industrial products. This division also provides embedded systems and solutions comprising supply of hardware, application software, and enclosure design for

electronics product design and development in automotive, medical, semiconductor, and industrial products.

### Significant Events

On November 30, 2009, Nuclear Power Corporation Of India Limited and Larsen & Toubro Ltd. announced the formation of a joint venture company to produce special steels and ultra heavy forgings.

On January 22, 2010, Larsen & Toubro Ltd. formed a joint venture with Sapuracrest Petroleum Bhd to undertake installation of pipelines and construction of offshore rigs and platforms in India, West Asia and South East Asia.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
