The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Le Gaga Holdings Ltd business.

About Le Gaga Holdings Ltd

Le Gaga Holdings Limited operates as a greenhouse vegetable producer in China. The company sells approximately 100 varieties of vegetables to wholesalers, institutional customers, and supermarket chains in China and Hong Kong.

As of June 30, 2010, the company operated 16 farms with an aggregate area of 1,257 hectares in the Chinese provinces of Fujian, Guangdong, and Hebei.

Products

The company's product offerings include leafy vegetables, such as flowering Chinese cabbage (choi sum), baby bok choy, and baby Chinese cabbage; solanaceous vegetables such as eggplants, tomatoes, sweet peppers, pumpkins and cucumbers; cruciferous vegetables such as broccoli and Chinese cabbage; and root vegetables, such as potato and radish.

Customers

The company's customers include international hypermarket chain Walmart and the major Hong Kong supermarket chains, Wellcome, ParknShop and Vanguard, each with

stringent vendor qualification requirements.

The company sells and delivers its produce to wholesalers at the Cheung Sha Wan vegetable wholesale market in Hong Kong. In addition, it sell its produce at its farms located in Guangdong and Fujian provinces to wholesalers from various wholesale markets in China, including the Tong'an Minnan vegetable wholesale market in Xiamen, Fujian province, the Yafeng vegetable wholesale market in Fuzhou, Fujian province, and the Buji agricultural product wholesale market in Shenzhen, Guangdong province.

The company sells its produce to institutional customers, such as export traders, food processing companies, and large company canteens and large logistic traders. The company also sells its produce to supermarket chains in China and Hong Kong, including the international hypermarket chain Walmart, the three major Hong Kong based supermarket chains, namely, Wellcome, ParknShop, and Vanguard, as well as the People's Republic of China-based supermarket chain, New Hua Du.

History

Le Gaga Holdings Limited was founded in 2004.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
