Such information creates your awareness about principal trends of Left Behind Games Inc. business.

About Left Behind Games Inc.

Left Behind Games Inc., doing business as Inspired Media Entertainment, engages in the development, production, and sale of Christian inspirational personal computer (PC) video games in the United States. The company's PC video games are based upon the Left Behind series of novels, published by Tyndale House Publishers.

Principal Products or Services and Their Markets

Left Behind Games

The company's two primary video games are based upon the Left Behind novels and products. These entail fictional storylines focused on events at the end of the world, including the ultimate battles of good against evil.

The company's initial product is a PC game called 'Left Behind: Eternal Forces' (EF). EF is a real time strategy game played by one person or online by approximately eight players on PCs. The game is loosely based on the Left Behind series.

The company also introduced, 'Left Behind: Tribulation Forces'. It is a sequel EF. Tribulation Forces includes the 40 missions of Eternal Forces with 5 new missions.

Charlie Church Mouse Games

The company's 'The Charlie Church Mouse' (CCM) video games are educational software programs utilizing Bible stories designed for pre-school, kindergarten, and early elementary age children. Each of its three CCM games teaches life lessons through Biblical stories.

Keys of the Kingdom Game

The company's 'Keys of the Kingdom' PC game features brain-teasing dynamics and inspirational scriptures.

Strategic Alliances

In April, 2010, the company announced strategic relationship agreements with Lifeline Studios and Cloud9Games to develop three new games for release in-time for Christmas 2010. Such titles include Charlie Church Mouse 3D Bible Adventures, Praise Champion, and King Solomon's Trivia Challenge.

Marketing

The company has signed a distribution agreement with Jack of All Games to distribute its games, providing it with potential distribution of its products into stores including Wal-Mart, Best Buy, Target, EB Games, GameStop, Toys 'R' Us, Blockbuster, and other retailers. The company sells its products internationally through distributors into Australia, Canada, Singapore, and South Africa.

Competition

The company's competitors include Sony Computer Entertainment; Nintendo Co. Ltd.; and Microsoft Corporation.

History

Left Behind Games Inc. was founded in 2001.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
