Abstracts

Legend International Holdings, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Legend International Holdings, Inc. and its competitors. This provides our Clients with a clear understanding of Legend International Holdings, Inc. position in the [Metals and Mining](#) Industry.

The report contains detailed information about Legend International Holdings, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Legend International Holdings, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Legend International Holdings, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios

pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Legend International Holdings, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Legend International Holdings, Inc. business.

About Legend International Holdings, Inc.

Legend International Holdings, Inc., an exploration stage company, engages in mineral exploration and development activities.

Legend's Land Holdings and Projects

The Legend landholdings, prospective for phosphate, diamonds and base metals cover 40,525 acres in Queensland, Australia and 4.7 million acres in the Northern Territory, Australia. In Queensland, Legend's holdings are phosphate deposits located in the Mt. Isa district, along the margin of the Georgina Basin which is host to major base metal and phosphate deposits.

Selby Project

The Selby project is located 100km SW of the coast of the Gulf of Carpentaria in the McArthur Basin, adjacent to the Georgina Basin which hosts Legend's Queensland phosphates. Work completed in 2008 consisted of open file review, project generation, geological mapping, rock chip, stream and loam sampling, diamond and RC drilling.

McArthur River

Legend's base metal project is situated approximately 20 kilometres south west of Borroloola. The Emu fault zone which runs through Legend's tenements is a mineralised geological feature hosting the HYC Pyritic Shale base metal prospect and known base metal deposits. Work completed in 2008, consisted of open file review, project generation, geological mapping, rock chip, soil and MMI sampling, including RC drilling.

Abner Range

The Abner Range Plateau is approximately 300 kilometers south of Borroloola, west of The Gulf of Carpentaria in the Northern Territory. Work completed in 2008 consisted of open file review, project generation, geological mapping, rock chip, stream sediment heavy mineral and MMI sampling, including diamond drilling.

Glyde Project

The Legend tenement is north of the HYC Pyritic Shale base metal prospect and this geological unit has been intersected in several drill holes. Work completed in 2008 consisted of open file review, project generation, geological mapping, stream sediment heavy mineral and MMI sampling.

Cox Project

The Cox Project is located approximately 150km west of the Merlin diamond field. The grid sampling was carried out at 500m spacing in some areas, and 1km in others. Exploration carried out over the Cox Project has included site investigations to verify historical sampling results, a compilation and analysis of historic exploration data from open-file reports and multi-client airborne magnetic data with a view to developing an appropriate exploration strategy. Work completed in 2008 essentially involved the follow-up of the 2006 targets that were identified through an open file review. Other work included project generation, geological mapping, GIS compilation and soil sampling.

Significant Events

In August 2009, Legend International Holdings Inc. announced that the Queensland Government has granted the Exploration Permit for Paradise South EPM 16942 to

Legend International Holdings Inc.

In April 2009, Mt Isa Metals Limited entered into a joint venture agreement with Legend International Holdings, Inc. in relation to the DTree phosphate deposit.

In November 2009, the company has formed a strategic alliance with Wengfu Group Co. Ltd. (Wengfu) for the development of its phosphate mine, a beneficiation plant and a phosphoric acid plant in the Mt Isa region, Queensland, Australia.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
