Abstracts

Legend Mining Ltd. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Legend Mining Ltd. and its competitors. This provides our Clients with a clear understanding of Legend Mining Ltd. position in the [Metals and Mining](#) Industry.

The report contains detailed information about Legend Mining Ltd. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Legend Mining Ltd.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Legend Mining Ltd. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Legend Mining Ltd. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Legend Mining Ltd. business.

About Legend Mining Ltd.

Legend Mining Limited (the company) engages in the gold production in Australia. Legend has been involved in the mining of over 2.5 million ounces of silver in the West Pilbara region of Western Australia.

Gidgee Gold Project

Legend took over operations at the Gidgee Gold Project on 17th December, 2003. The Gidgee Gold Project is located 90 kilometers north of Sandstone in the Goldfields region of Western Australia. This property covers over 600km² of the prospective Gum Creek greenstone belt.

Karratha Exploration Projects

Legend continued exploration during 2003 on its West Pilbara holding of approximately 675 square kilometers. The work included regional reconnaissance and mapping, target reviews and metal detecting along structural corridors.

Through its 100% interests, the company also conducts exploration activities that include

Carlow Castle (Legend 100%): Exploration drilling at Carlow Castle has discovered high grade resources, including 30,000 ounces of gold averaging 10g/t (with 1.4% copper) at Carlow South, which is open at depth.

Mt Sholl/ Black Hill Well/Twin Table Hills/ Radio Hill (Legend 100%): Significant gold anomalism has continued to be discovered by fieldwork within the Mt Sholl ground, with recovery of gold nuggets and specimens up to 10 ounces in weight.

Ruth Well Nickel (Legend 100%): Compilation and evaluation of previous data from the Ruth Well nickel deposits is in progress.

Bradley Well (Legend 100%): Exploration has discovered several samples of heavily-mineralized gold lode material associated with western extensions of the Orpheus shear and gossan system.

The Company is focused on converting resources into reserves at the Swan Bitter mine together with the strategic opportunity of exploiting the nearby 92,000 ounce Kingfisher and 310,000 ounce Wilson deposits.

Emerald Joint Venture (Legend 91%)

At the end of 2003 Legend carried out a review of the project and subsequently surrendered the tenement in March, 2004.

Munni Munni Joint Venture (Legend 33.33%)

In addition, the company has 33.33% interests in Munni Munni joint ventures. On 27th November, 2003, the JV operator East Coast Minerals announced completion of a detailed aeromagnetic survey over the base of the Munni Munni intrusive seeking nickel-copper sulphide mineralization.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
