Abstracts

LGA Holdings Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between LGA Holdings Inc. and its competitors. This provides our Clients with a clear understanding of LGA Holdings Inc. position in the [Auto Parts](#) Industry.

The report contains detailed information about LGA Holdings Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for LGA Holdings Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The LGA Holdings Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes LGA Holdings Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of LGA Holdings Inc. business.

About LGA Holdings Inc.

LGA Holdings, Inc., through its wholly owned subsidiary, Let's Go Aero, Inc., engages in the design and sale of gear management solutions for the automotive recreation and commercial uses. Aero's family of products uses patented designs, and includes the GearWagon line of Sport Performance Trailer, the GearSpace line of hitch-mount cargo carriers, the Silent Hitch Pin line, the LittleGiant Trailer line and the GullWing line of RV technology. Aero provides solutions for vehicular cargo carrying enhancements.

Products

GearWagon AT Sport Performance Trailers: Aero's GearWagon line of Sport Performance Trailers are designed for carrying various types of personal, recreational, and commercial gear.

GearSpace Carriers: The GearSpace hitch based carrier line consists of two enclosed cargo carrier models, GearSpace 34 and GearSpace 20, with three structural options to choose from for varying function while on the vehicle's hitch receiver.

SILENT HITCH PIN: This anti-vibration device takes various movements out of the connection between the vehicle towing system and what's being towed or carried. In

short, it freezes the attachment securely in place. It works with majority of consumer vehicle towing systems.

TwinTube System: The TwinTube (TT) System is a new, patent pending design that has been licensed to Sport Rack International/Valley Industries, Inc. for sale to the automotive Original Equipment Manufacturers and the after-market. TwinTube is a universal mounting structure for carrying gear and equipment with a hitch receiver. TwinTube is also offered as a UBI system (U-Build-It).

GearDeck System: Incorporating Aero's TwinTube technology, GearDeck is a modular carrier that functions as an open platform carrier or an enclosed carrier through the use of a modular hardtop lid enclosure. The open platform can carry bicycles and various other items; an enclosure system carries various kinds of general cargo as well as items, such as power generators.

GearCrate/LittleGiant Trailer System: New patent pending design for both a recyclable shipping crate, an utility trailer and the function of a shipping crate that can be converted into a trailer at destination for the device being shipped which include ATV's, motorcycles, generators, welders.

GullWing camper: Derivative of Little Giant Trailer. New patent pending design for personal motor sport and RV applications. The GullWing design allows a cargo trailer to convert into a new category of camping trailer. GullWing intellectual property also has application for pickup toppers and pickup campers.

TENTRIS tent and portable structure: New patent pending design for tent and portable enclosure applications.

GearDeck APU: New patent pending derivative of Aero's GearDeck 17 system. APU is an electrical generator storage, transportation and organization solution designed initially for recreational vehicles. The APU system may also have application with the portable generator market.

ONAN JUICEBOX: Aero completed a product development effort with the Onan division of Cummins, Inc resulting in Onan's JuiceBox product. The licensed design is based on LGA's Silent Hitch Pin, TwinTube, GearDeck and LandingGear Intellectual Property.

PIXIE BICYCLE CARRIER: Aero developed and patented a new technology for bicycle carriers. Aero licensed this technology to Cequent Towing Products, a division of Trimas

Corp., at the prototype stage of development, in 2008.

Competition

The Company's competitors include Yakima Products and Thule.

History

LGA Holdings, Inc. was incorporated in 1998. It was formerly known as LGA, Inc. and changed its name to LGA Holdings, Inc. in 2005.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
