This sort of company's information will assist and strengthen your company's decision-making processes.
- In the part that describes Limelight Networks, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.
- Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Limelight Networks, Inc. business.

About Limelight Networks, Inc.

Limelight Networks, Inc. provides content delivery network services. The company delivers content for traditional and emerging media companies, or content providers, including businesses operating in the television, music, radio, newspaper, magazine, movie, videogame, software and social media industries; online businesses operating e-commerce storefronts; and government organizations, corporations, or enterprise businesses that operate a Web site.

Services

In 2009, the company announced the acquisition of Kiptronic, Inc. and EyeWonder, Inc. It introduced LimelightSITE and its next-generation XD Platform. XD is an upgrade to the software layer that manages the company's global content delivery infrastructure. Its services are purpose-built for the delivery of digital content to global audiences.

The company's primary services include LimelightDELIVER provides HTTP/Web distribution of digital media files such as video, music, games, software and social media; LimelightSTREAM provides on-demand and/or live streaming for major formats, including Adobe Flash, MP3 audio, QuickTime, RealNetworks RealPlayer and Windows Media; LimelightSITE speeds the delivery of the static, dynamic, and personalization elements that make up an entire Web site, by routing content over its infrastructure, and not over the often congested, public Internet; and LimelightREACH helps publishers deliver properly-formatted, device optimized content to almost any media-enabled mobile handset by auto-detecting the end-user device.

The company's services also include LimelightADS allows publishers to present dynamic pre-, mid-, or post-roll video and audio advertising into media that is delivered to mobile or connected users; LimelightPS, its professional services division, helps customers determine content distribution strategies, network architecture design, content storage infrastructure, live event execution, and practices spanning the design, deployment and management of on-line web infrastructure; and LimelightSUPPORT, provides customers with engineering resources that keep customers on-line initiatives a top priority.

The company provides an enhanced delivery option for LimelightDELIVER, called DELIVER XD, which uses its adaptive intelligence innovations to improve the consistency and performance of delivery across various devices, network types and geographies.

Advanced reporting and control

LimelightCONTROL: LimelightCONTROL is a new, management and reporting suite that enables customers to exercise control over their Limelight Networks content delivery service, including the technologies and software in the XD Platform. This new service suite replaces the former LimelightEXCHANGE portal and includes an upgraded user interface; enhanced reporting that includes data on Internet conditions, granular control over storage utilization, and more.

LimelightCONTROL helps customers analyze their online operations through a set of reports that allow customers to monitor various aspects of their streaming or content delivery, such as object-level details, bandwidth and storage utilization, most requested content, and minutes listened or watched on each stream. LimelightCONTROL also enables customers to control how the company publishes and presents their content.

LimelightCONTROL XD offers management applications and provides insight into performance of an online business. The service includes customer provisioning of services, custom control over CDN storage options, and the Internet Health Monitor (LINK), which provides customers with insight into sources of end user experience issues, collected in by millions of globally distributed user agents that are part of the XD Platform.

LimelightHD

LimelightHD is an extension to the company's LimelightSTREAM and LimelightDELIVER services that enables customers to delivery high-definition content to end users. The service also tracks the delivery of HD content separately from standard-definition content.

MediaVault

The company offers a scalable security option that helps to protect customers' content from unauthorized access. With MediaVault, customers can associate a protect

The above Company Fundamental Report is a half-ready report and contents are subject to change. It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.
