The LiveWire Mobile, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes LiveWire Mobile, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of LiveWire Mobile, Inc. business.

### **About LiveWire Mobile, Inc.**

LiveWire Mobile, Inc. provides managed personalization services for mobile operators and mobile subscribers.

The company's integrated managed service offerings include ringback tones, ringtones, full track downloads and other applications, as well as, content and service marketing, integrated storefront management and merchandising. It sells these offerings as a managed service to mobile operators who then offer these services to their subscribers as a la carte purchases and through monthly subscriptions. It also sells its MyCaller ringback platform as a bundled product (hardware and licenses) and service offering, which refers to as a 'cap-ex' arrangement. Its offerings are deployed in approximately 32 operators worldwide with approximately 7 million active subscribers.

### **Service and Products**

The company offers a portfolio of integrated mobile personalization services including ringback tones, ringtones, full-track downloads and other applications, as well as content and service marketing, allowing mobile operators to deliver these services through an integrated storefront management system.

**Managed Personalization Suite:** The company's suite of managed personalization services lets mobile subscribers create a mobile identity. It tailors its managed services for an operator's brand, network and subscribers.

**Ringback Tones:** The company's ringback services give mobile subscribers the power to select original recordings of music, sounds and voices for callers to hear in place of the conventional ringback. It offers a suite of ringback services that have an appeal across the full spectrum of mobile subscribers. The company's ringback service gives mobile subscribers access through multiple storefront options including Web, Wireless Application Protocol (WAP), Interactive Voice Response (IVR) and Short Message Service (SMS).

**Full-Track Music:** The company's mobile music service includes a-la-carte downloads, a rental subscription service and the ability to side-load music from a PC. This service is supported by its content catalog, merchandising expertise, and marketing knowledge to help mobile operators deliver full -track music to their subscribers, and includes the following features:

Web and WAP store enables mobile subscribers to browse, discover, purchase and manage their mobile music. The WAP store is designed for deployment and handset penetration.

Mobile Music Player is a full-featured software application designed specifically for mobile subscribers.

**Ringtones:** The company's ringtone service provides a set of real tones and polyphonic ringtones that allows mobile subscribers to personalize their mobile phone's ringer. The service is supported through Web and WAP interfaces.

**Achieve Marketing Service:** This service provides life-cycle marketing and content support for its managed services. The service tracks trends and shares information including practices, operator benchmarks, pre-launch check lists and post-launch reviews. The Achieve Marketing Service also provides detailed assessments and consultation to mobile operators focusing on service utilization, content management and offers marketing campaign brainstorming and user interface (UI) design. In addition, the service provides access to its content library, and content merchandising.

**Infuse:** Infuse is a service platform that powers its services and delivers a personalization capability that encompasses simplified user experience and service

discovery, content management, personalization engines, targeted marketing and promotions, and services billing.

**Integrated Storefront:** This service enables mobile operators to streamline business operations and simplify their subscribers' experience by offering a range of LiveWire Mobile's mobile personalization services and other third party services, under a single storefront. Powered by the Infuse service platform, the Integrated Storefront simplifies an operator's business and network operations across multiple content services by streamlining service management, such as content ingestion, storefront merchandising and cross-service reporting.

**MyCaller Ringback:** This is the platform version of its ringback service that is made available through channel partners and to mobile operators who prefer to purchase capital equipment, software licenses and support to deploy a ringback service. MyCaller Ringback gives subscribers the power to select original recordings of music, sounds and voices for callers to hear in place of the conventional ringback.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
