Such information creates your awareness about principal trends of Lopez Holdings Corporation business.

## **About Lopez Holdings Corporation**

Benpres Holdings Corp. holds investments in broadcasting and entertainment, telecommunications, power generation and distribution, and real estate development businesses.

### **Broadcasting and Entertainment**

Media: ABS-CBN Broadcasting Corporation provides content and delivery platforms serving Filipino audiences.

Cable: Sky Cable Corporation offers digital cable TV services in the southern Metro Manila cities of Muntinlupa, Paranaque, and Las Pinas. Its digital cable TV services give subscribers onscreen program guides with 'now and next shows' features, and enables them to lock channels with content. Other digital-ready areas in Metro Manila are in Makati, Manila, Mandaluyong, Marikina, Pasay, Pasig, Quezon City, and San Juan. Its digital cable TV also allows for approximately 200 cable channels. In October 2008, it also launched the SkyBroadband service with speeds up to 12mbps. It also launched SkyVoice with long distance rates.

### **Telecommunications**

Bayan Telecommunications, Inc. expanded its wireless landline outdoor coverage in 2008, with Bayan Wireless Landline service offered in Metro Manila, Naga, Legaspi, Tacloban, Samar, Davao, Iloilo, Cagayan de Oro, and General Santos cities.

### Power Generation and Distribution

The company has interests in both power generation and electricity distribution. These interests are managed through First Philippine Holdings Corporations (FPHC) ), which is 43.1% owned by the company, as of December 31, 2008, is a holding company whose main businesses are power and infrastructure. Main companies under FPHC are First Gen Corporation for generation and Manila Electric Company for distribution.

### Real Estate Development

Rockwell Land Corporation is in the process of development of a two-tower, high-rise residential project located at the gateway of the 15-hectare Rockwell Center in Makati City. It has approximately 400 special units, including lofts, bi-levels, tri-levels, and the z-lofts or z-shaped units which provide views of both sides of the building.

The Grove by Rockwell is located along the 37-hectare C5 corridor of properties in Pasig City. The Grove offers studios, one- or three-bedroom flats, bi-level loft units, penthouses, and garden units.

The Rockwell Business Center is located within the Meralco compound. It offers 73,000 square meters of office space, with each floor plate spreading 1,900 square meters divisible into halves or quadrants.

### History

Benpres Holdings Corp. was incorporated in 1993.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
