The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Mainstreet Bank business.

About Mainstreet Bank

MainStreet Bank provides commercial banking services in the United States. The company markets its financial services to individuals, small to medium sized businesses, entrepreneurs, professionals, consumers, and high net worth clients. Its client base is located in the Northern Virginia market.

The company has two branch locations, one in Herndon, Virginia and one in Fairfax City in Fairfax, Virginia. It offers a range of commercial and consumer banking services from its banking offices and from its online banking, ACH, and remote deposit solution.

Lending Activities

The company's primary market focus is on making loans to small businesses, professionals, and other consumers in its local market area, along with various aspects of real estate finance. It also provides a range of real estate finance services. The company's primary lending activities are principally directed to its defined market area in Fairfax County and Loudoun County, as well as the greater Washington, D.C. metropolitan area.

Commercial Business Lending: Commercial loans are written for various business

purposes, including government contract receivables, business acquisition, plant and equipment, general working capital, contract administration, and acquisition lending.

Commercial Real Estate Lending: The company finances owner occupied and investment commercial real estate. It has a concentration in loans secured by commercial real estate.

Real Estate Construction Lending: This segment of its portfolio is predominately commercial in nature and composed of loans with short durations. The company offers real estate construction financing to customers that have in place a permanent loan 'take-out', either by the company or another institution.

Residential Real Estate Lending: The company offers various consumer-oriented residential real estate loans. The bulk of its residential portfolio is made up of home equity lines of credit to individuals.

Consumer Installment Lending: The company offers an array of consumer loans, including car loans, term loans, VISA credit cards, and overdraft protection.

Investment portfolio

The company's investment portfolio includes U.S. Government Agency Securities, U.S. Government Agency CMOs, U.S. Government Agency MBSs, Other MBS Securities, and FHLB and FRB Common Stock.

Deposits

The company offers an array of deposit products that include non-interest bearing demand accounts, interest-bearing NOW accounts, interest-bearing money market and savings accounts, as well as certificates of deposit.

History

MainStreet Bank was founded in 2003.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
