The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Majestic Capital, Ltd. business.

About Majestic Capital, Ltd.

Majestic Capital Ltd. provides workers' compensation insurance products. Through subsidiaries, the company offers workers' compensation insurance coverage, reinsurance, and fee-based management services for self-insured entities. The company's workers' compensation insurance coverage is offered to employers in California, New York, New Jersey, Arizona, Nevada, and other states. Its reinsurance is underwritten from Bermuda, and fee-based management services are provided to one self-insured entity in California.

Segments

The company's segments include Primary insurance; Reinsurance; Fee-based management services; and Other.

Primary Insurance segment

This segment includes the underwriting of workers' compensation insurance products. The company offers primary workers' compensation insurance through independent insurance brokers and agents to various size businesses and excess and frequency coverage policies to self-insured entities. Majestic is licensed to write workers'

compensation insurance in 16 states: Alaska, Arizona, California, Florida, Hawaii, Idaho, Illinois, Montana, Nevada, New Jersey, New Mexico, New York, Oregon, Utah, Virginia and Washington. During 2009, the company wrote workers' compensation insurance in 10 states.

Reinsurance segment

This segment includes the underwriting of reinsurance by Twin Bridges, the company's Bermuda-based reinsurance company. Twin Bridges provides reinsurance coverage to Majestic on its workers' compensation insurance policies, including primary insurance policies and excess and frequency coverage issued to self-insured entities. Twin Bridges provides the coverage through participating in Majestic's excess of loss reinsurance treaty and through quota share reinsurance agreements. Twin Bridges' reinsurance products are written in the form of treaty reinsurance contracts, which are contractual arrangements that provide for automatic reinsuring of a type or category of risk underwritten by the insurance company.

Fee-Based Management Services segment

This segment includes the offering of various management services to self-insured groups in California under fee-for-service arrangements. The company manages one self-insured group for the healthcare industry in California. The company provides this group with a range of services, including general management, underwriting, risk assessment, general recordkeeping, and regulatory compliance. It provides safety and loss control services to group members to help reduce workers' compensation risks and expenses. The company also acts as the insurance broker and places any excess and frequency insurance coverage for the self-insured group.

Other segment

This segment represents the holding company activities of CRM Holdings and its consolidated holding companies, which own, directly or indirectly, all of the capital shares and stock of the company's insurance and other operating subsidiaries.

Competition

The company's competitors include other insurance companies, mutual insurance companies, individual self-insured employers, state insurance pools, including the State Compensation Insurance Fund in California and the New York State Insurance Fund,

safety groups and other self-insured and captive products.

History

The company was formerly known as CRM Holdings, Ltd. and changed its name to Majestic Capital Ltd. on May 6, 2010.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
