The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Manchester, Inc. business.

About Manchester, Inc.

Manchester, Inc., through its subsidiaries, provides customers with the opportunity to purchase used cars, flexible financing arrangements and personal service. The company is also pursuing the acquisition of additional companies engaged in the Buy-Here/Pay-Here used car sales business.

The company's subsidiaries include Nice Cars Operations AcquisitionCo (Nice Cars), Nice Cars Capital Acceptance, Nice Cars Funding LLC, and Manchester Indiana Funding LLC.

Nice Cars operates automotive sales lots that focus exclusively on the Buy-Here/Pay-Here segment of the used car market. Buy-Here/Pay-Here dealers sell and finance used cars to individuals with limited credit histories or past credit problems.

Nice Cars operates six sales lots that maintain an inventory that ranges from approximately 400 to 800 vehicles, featuring various makes and models (with ages usually ranging from 3 to 6 years).

Nice Cars Capital Acceptance is a financial services affiliate of Nice Cars that engages in retail financing activities. Nice Cars Capital Acceptance and/or Nice Cars Funding

LLC purchases the retail sales contracts of Nice Cars, and assumes all rights and responsibilities with respect to the retail sales contracts. These contracts have varying terms, generally ranging from 36 to 60 months.

In December 2006, the company acquired F.S. English, Inc. (F.S. English), a Buy-Here/Pay Here car sales company which operates three retail locations in the Indianapolis area, and GNAC, Inc. (GNAC, and together with F.S. English, the Indiana Companies), its affiliated credit acceptance company.

Manchester Indiana Funding LLC, a wholly-owned subsidiary of the company entered into a loan agreement with Palm Beach Multi-Strategy Fund, L.P., to provide financing for the acquisition of the Indiana Companies.

Markets

The principal geographic market of Freedom Auto Sales covers Vigo County, Allen County, and Marion County, Indiana.

History

Manchester, Inc. was founded in 1998.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
