The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Manhattan Bancorp business.

About Manhattan Bancorp

Manhattan Bancorp operates as the bank holding company for Bank of Manhattan, N.A., which provides community-banking products and services to primarily entrepreneurs, small and medium-sized businesses; business service professionals; and owners/owner-users of commercial, industrial, and multi-family properties in the Los Angeles County market area.

The company's main office is located in El Segundo, California. The company's primary service area consists of the County of Los Angeles, with a particular emphasis on the Westside, South Bay, and Los Angeles airport areas of Los Angeles County in Southern California.

The company offers range of deposit products, including non-interest bearing demand deposit and interest bearing checking accounts, regular savings accounts and certificates of deposit. It offers cash management services to its commercial checking account customers. It also offers wire transfers, electronic bill payment, and overdraft protection.

The company offers Internet banking services which allow customers to review their account information, issue stop payment orders, pay bills, transfer funds, order checks,

and inquire about credit products electronically.

Loan Portfolio

The company offers both secured and unsecured commercial term loans and lines of credit, and construction loans for individual and commercial properties. It also offers home equity and other consumer loans.

Commercial Loans: The company offers various commercial loans, including secured and unsecured term and revolving lines of credit, equipment loans, accounts receivable loans, and SBA loans.

Real Estate Loans: The company's real estate loans are secured primarily by commercial property.

Other Loans: The company offers other types of loans, including home equity lines of credit. Home equity lines of credit have adjustable rates and provide the borrower with a line of credit.

Investments

As of December 31, 2009, the company's investment portfolio included the U.S. government and agency securities, mortgage-backed securities, state and municipal securities and other securities.

Acquisitions

In October 2009, the company, through its wholly owned subsidiary, MBFS Holdings, Inc., acquired a 70% interest in Banc of Manhattan Capital, LLC, a full-service mortgage-centric broker/dealer.

History

Manhattan Bancorp was founded in 2006.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
