# **Abstracts**

Marathon Group Corp. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Marathon Group Corp. and its competitors. This provides our Clients with a clear understanding of Marathon Group Corp. position in the Industry.

The report contains detailed information about Marathon Group Corp. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Marathon Group Corp.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Marathon Group Corp. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Marathon Group Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Marathon Group Corp. business.

# **About Marathon Group Corp.**

Marathon Group Corp. engages in the custom fitting and fabrication of custom made prosthetic limbs for both upper and lower extremities to infants and children throughout the United States. The company also provides its services to families from the international community when the parents can bring the child to the United States for fitting.

The company purchases manufactured components from various manufacturers and combine those components to fabricate custom measured, fitted and designed prosthetic limbs for its patients. It also creates 'anatomically form-fitted suspension sockets' that allow the prosthetic limbs to fit with each patient's unique residual limb.

## Suppliers

The company obtains the materials which it uses to fabricate and fit its prosthetic limbs from various suppliers, including ARTech Laboratory in Midlothian, Texas; Liberating Technologies, Inc. in Holliston, Massachusetts; Otto Bock Health Care in Minneapolis, Minnesota; Ross Prosthetics in Hartsdale, New York; Southern Prosthetic Supply in Alpharetta, Georgia; Hosmer Dorrance in Campbell, California; P.V.A. Sleeves Co. in Houston, Texas; Daw Industries in Atlanta, Georgia; and American Plastics in Arlington,

Texas.

## Agreements with Host Affiliates

The company has entered into consulting contracts with 15 host prosthetic providers (Host Affiliates) with facilities at various locations in 19 states. These consulting agreements allow the company to utilize the Host Affiliate's patient-care facilities and billing personnel to aid the company in fitting and fabricating custom-made artificial limbs and provide related care and training in multiple geographic locations.

As of September 18, 2007, the company's Host Affiliate companies were: Restorative Health Services, Nashville, Tennessee; Creative Prosthetics and Orthotics, 9 cities throughout New York; Douglass Orthotics & Prosthetics, Seattle, Washington; Union Prosthetics, Pittsburgh, Pennsylvania; Advanced O&P, Springfield, Missouri (operates in Missouri, Arkansas, Kansas, and Oklahoma); Arizona (also operates in California, and North Carolina); Orthotic Solutions, Fairfax, Virginia (also operates in Maryland); Innovative Prosthetic Solutions, Lake Forest, California; Hemet O&P Los Angeles, California; Michigan Orthotics & Prosthetics, Saganaw, Michigan; American Orthopedics, Columbus, Ohio; Harlingen O&P, Harlingen, Texas; Land of Lakes O&P Minneapolis, Minnesota, and St. Paul, WI; O&P Clinical Technologies, Gainesville, Florida; and Capitol Prosthetics, Columbia, South Carolina.

#### Competition

The company identifies competition from the Shriner's Hospital system, a non-profit organization.

## History

The company was formerly known as Pediatric Prosthetics, Inc. and changed its name to Marathon Group Corp. on August 3, 2010.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

## **ANALYSIS FEATURES**

## **SWOT Analysis**

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

## **Enhanced SWOT Analysis**

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

#### **PESTEL Analysis**

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

# Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

## IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

# Reputation

# Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?
Rare?
Costly to imitate?
Organized properly?
