The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of MB Financial Inc. business.

About MB Financial Inc.

MB Financial, Inc. operates as the bank holding company for MB Financial Bank, N.A. The company offers a range of financial services primarily to small and middle market businesses and individuals. As of December 31, 2009, it conducted its business at 87 retail banking center locations, with 86 in the Chicago metropolitan area and 1 in Philadelphia, Pennsylvania.

Primary Lines of Business

The bank's primary lines of business include commercial banking, retail banking, and wealth management.

Commercial Banking

Commercial banking focuses on serving middle market businesses, primarily located in the Chicago metropolitan area. The bank provides a set of credit, deposit, and treasury management products to these companies. It has a range of credit products for its target market, including working capital loans and lines of credit; accounts receivable; inventory and equipment financing; industrial revenue bond financing; business acquisition loans; owner occupied real estate loans; and financial performance and

commercial letters of credit. Its deposit and treasury management products include Internet banking products for businesses, investment sweep accounts, zero balance accounts, automated tax payments, ATM access, telephone banking, lockbox, automated clearing house transactions, account reconciliation, controlled disbursement, detail and general information reporting, wire transfers, a variety of international banking services, and checking accounts. The bank also provides a set of credit, deposit, and treasury management services for real estate operators and investors.

Commercial banking also serves small and medium size equipment leasing companies located throughout the United States. The bank provides banking services to leasing companies by financing the debt portion of leveraged equipment leases (referred to as lease loans), providing short and long-term equity financing and by making working capital and bridge loans. It also invests directly in equipment that the bank lease to other companies located throughout the United States (referred to as operating leases). The bank's operating lease portfolio is made up of various kinds of equipment, technology related, such as computer systems, satellite equipment, and general manufacturing equipment.

Additionally, LaSalle Systems Leasing, Inc, a subsidiary of the bank, primarily focuses on leasing technology-related equipment to middle market and larger businesses throughout the United States.

Retail Banking

Retail banking target customer is the household looking for a suite of deposit and lending products and customer service that resembles that of a community bank. The bank's consumer deposit products include checking, savings, money market, time deposits and IRA accounts, retail banking, internet banking and bill payment service, money market cards, redeemable for merchandise, gift cards and travel; and e-statement.

Wealth Management

The bank's Wealth Management Group provides coordinated and integrated delivery of investment management, trust, brokerage and private banking services. Its asset management and trust department offers a range of financial services, including personal trust, investment management, custody, estate settlement, guardianship, tax-deferred exchange, and retirement plan services. The bank's private banking department provides qualified clients with personalized banking products and services,

including a private banker as a single point of contact for all their financial needs. The bank's subsidiaries Cedar Hill Associates, LLC and Vision Investment Services, Inc. provide clients with non-FDIC insured investment alternatives and insurance products.

Lending Activities

The bank is primarily a commercial lender and its loan portfolio consists primarily of loans to businesses or for business purposes.

Commercial Lending: The bank make commercial loans to small and middle market businesses most often located in the Chicago area. Borrowers tend to be privately owned and are manufacturers, wholesalers, distributors, long-term health care operators, and service providers. Loan products offered are primarily working ca

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
