The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of McKenzie Bay International Ltd. business.

About McKenzie Bay International Ltd.

McKenzie Bay International, Ltd., a development stage company, engages in the development of wind powered alternative energy systems. The Company also holds mining claims to a vanadium deposit in Northern Quebec.

Proposed Products

WindStor Systems

The Company intends to contract with others for the manufacture of WindStor systems which include its WindStor Wind Turbine (WWT). The WWT has been designed to utilize the technology which has included in its patent applications. Testing of this product is ongoing.

WindStor

The Company is developing an energy system which is intended to integrate and manage WWTs and other electricity generating sources with an energy storage device. The WWT is an integral part of WindStor and results of WWT testing would have a material affect on the potential for WindStor.

Lac Dore Deposit

The Lac Dore deposit is located approximately 70 kilometers southeast of the city of Chibougamau, in the Rinfret and Lemoine townships of northern Quebec. The deposit is approximately five kilometers south of Chibougamau Lake, which is in a low, flat ground area, 380 meters above sea level.

Lac Dore Mining, Inc. Activities: Lac Dore Mining, Inc. owns 404 claims. The Lac Dore property hosts a large deposit containing titanium with Precambrian shield rocks. Lac Dore Mining, Inc. acquired the original 434 claims in Lac Dore by purchasing claims from third parties and staking claims for itself.

Agreements

In August, 2005, the Company entered into Power Purchase Agreement (PPA) with the Ishpeming Housing Commission (IHC) for the sale/purchase of onsite generated electricity for the Ishpeming, Michigan HUD sponsored senior citizen apartment building, 'Pioneer Bluff'.

In August 2005, the Company also entered into two other Power Purchase Agreements with the Bristol County Sheriff's Office in North Dartmouth, MA and Bradford Dyeing Association, Inc. in Bradford, RI.

Customers

The company's customers would include the end-users (retail consumers) of electricity, such as commercial office buildings, schools, and government buildings.

Competition

The Company's competitors would include Atlantic Orient Corporation, Northern Power Systems and Vergnet, SA.

History

McKenzie Bay International, Ltd. was incorporated in 1998.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
