Such information creates your awareness about principal trends of Medi-Clinic Corp. Ltd. business.

About Medi-Clinic Corp. Ltd.

Medi-Clinic Corporation Limited operates multidisciplinary private hospitals in South Africa, Switzerland, and the United Arab Emirates (UAE).

Operations

The company's operations are divided into three platforms: Medi-Clinic Southern Africa (MCSA), Medi-Clinic Switzerland (MCCH), and Medi-Clinic Middle East (MCME).

Medi-Clinic Southern Africa

MCSA's head office is situated in Stellenbosch and operates 48 hospitals throughout South Africa and 3 hospitals in Namibia with approximately 6,800 beds.

ER24 renders emergency assistance services, including emergency response and transportation, inter-facility transfers, emergency medical advice, general medical advice, incident management, and co-ordination and other value-added services. ER24 owns and operates approximately 130 response vehicles and ambulances co-ordinated by an Emergency Contact Centre that receives emergency and medical calls.

Medical Human Resources provides temporary and permanent staff over the range of the healthcare industry to approximately 146 clients, mostly private hospitals, throughout South Africa and the United Arab Emirates. The company consists of two divisions, namely Medi-Nurse for placement of nursing staff and Medi-Staff for placement of administrative and medical staff.

Medi-Clinic Switzerland

MCCH is the provider of acute healthcare in Switzerland. Its head office is situated in Zürich and operates a network of 13 private acute care facilities located in 9 cantons throughout Switzerland with 1,334 beds. MCCH operates in Switzerland under the name of Hirslanden group of private hospitals.

Medi-Clinic Middle East

MCME holds 50% plus one of the ordinary shares in Emirates Healthcare Holdings Limited (EHHL). EHHL's head office is situated in Dubai and it owns and manages the 111-bed Welcare Hospital and a 210-bed The City Hospital, as well as 5 clinics. EHHL also owns vacant land in Dubai Healthcare City.

History

Medi-Clinic Corporation Limited was founded in 1983.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
