Such information creates your awareness about principal trends of Medical Connections Holdings, Inc. business.

About Medical Connections Holdings, Inc.

Medical Connections Holdings Inc. provides recruiting and staffing services to healthcare and medical industries in the United States. The company engages in identifying, selecting, and placing the executive allied health specialists, pharmacists, physicians, nurses, and hospital management executives for permanent and temporary positions. Its principal operating subsidiary is Medical Connections, Inc.

Operations

Permanent Placement Hires: This activity includes the hiring of allied health professionals, nurses, physicians, pharmacists and other medical personnel to be employed in healthcare or research facilities.

Contract Appointments: This activity includes an employment option and temporary hires (typically, 13 week contracts) made by healthcare facilities to economically cover short staffing during periods of high-seasonal activity, vacations, and leave of absences. This also includes contracts for travel positions, which are for allied health professionals, nurses or physicians who are willing to take temporary assignments

outside their home region.

Temporary to Permanent Model – Choices Program: This program is a shorter version of the contract appointments, which provides permanent placement hires with flexibility.

Target Market

The company's target market is non-for-profit and for-profit organizations, including healthcare institutions and medical research facilities in the United States. Other recruiting companies also an alternative market for its programs, including companies which are hired by the hospitals to outsource their human resource departments are a natural market for its services; and smaller medical recruiting companies and individual recruiters to offer them technological solutions for their businesses.

Competition

The company's competitors include AMN Healthcare Services, Inc., Cross Country Healthcare, Inc., Medical Staffing Network Holdings, Inc., and On Assignment, Inc.

History

Medical Connections Holdings, Inc. was founded in 2002.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
