The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Medical Facilities Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Medical Facilities Corp. business.

### **About Medical Facilities Corp.**

Medical Facilities Corporation, through its partnership interests, engages in the ownership and operation of specialty hospitals and ambulatory surgical centers (ASCs). The Centers are located in Sioux Falls, Rapid City and Aberdeen, South Dakota, Oklahoma City, Oklahoma and Irvine and Newport Beach, California, United States.

In 2008, the company purchased an indirect 51% interest in Newport Coast, an ambulatory surgical center located in Newport Beach, California.

#### Facilities

As of December 31, 2008, the minority interests in the Centers were as follows: Sioux Falls Surgical Hospital, LLP 49.0%; Dakota Plains Surgical Center, LLP 35.4%; Black Hills Surgery Center, LLP 45.8%; Oklahoma Spine Hospital, LLC 44.9%; Barranca Surgery Center, LLC 49.0%; and Surgical Center of Newport Coast, LLC 49.0.

#### Sioux Falls Surgical Hospital, LLP

Sioux Falls Surgical Hospital, LLP (SFSH) operates as a multi-specialty surgical facility located in Sioux Falls, South Dakota. SFSH performs orthopaedic, ear, nose and throat,

urology, neurology, gynecology, plastic, gastrointestinal, pain management, general surgery and ophthalmology procedures. The SFSH service area includes Sioux Falls and the communities east of Chamberlain, north of Yankton and south of Aberdeen in South Dakota, as well as districts west of Worthington, Minnesota.

#### Dakota Plains Surgical Center, LLP

Dakota Plains Surgical Center, LLP (DPSC) is located in Aberdeen, South Dakota, and is attached to an orthopaedic clinic that is the primary office of the orthopaedic physicians. DPSC focuses primarily on orthopaedic procedures. The primary service area for DPSC is the city of Aberdeen and surrounding townships.

#### Black Hills Surgery Center, LLP

Black Hills Surgery Center, LLP (BHSC) is located in Rapid City, South Dakota, and operates as a licensed specialty hospital. BHSC focuses primarily on orthopaedic and neurosurgical procedures. Rapid City and the surrounding region form BHSC's primary service area.

#### Oklahoma Spine Hospital, LLC

Oklahoma Spine Hospital (OSH) is located in Oklahoma City, Oklahoma, and operates as a licensed specialty hospital. OSH focuses on a limited number of clinical and surgical specialties, including neurosurgery, pain management, orthopaedic surgery and podiatry. OSH's primary service area extends beyond Oklahoma City, a city with a metropolitan area of approximately one million people, into central and western Oklahoma. OSH is the only facility in the Oklahoma City metropolitan area that focuses on the treatment of disorders of the spine.

#### Barranca Surgery Center, LLC

Barranca Surgery Center, LLC (Barranca) is located in Irvine, California, and operates as an ASC. Barranca performs various procedures within the surgical specialties of ear, nose and throat, gastroenterology, ophthalmology, gynecology and general and plastic surgery.

#### Surgical Center of Newport Coast, LLC

Surgical Center of Newport Coast, LLC (Newport Coast) is located in Newport Beach,

California. Newport Coast focuses primarily on orthopaedic, gastroenterology, gynecology and cosmetic surgery.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
