Such information creates your awareness about principal trends of Melcor Developments Ltd. business.

About Melcor Developments Ltd.

Melcor Developments Ltd (Melcor), which traces its history back to 1923, has been a public company since 1968. The Company operates in Alberta in the metropolitan areas of Calgary, Edmonton, Lethbridge and Red Deer and in Arizona. The Company's diversified operations includes the acquisition of raw land, which is held for future development until market conditions warrant the planning, servicing and marketing of urban communities which is then sold in the form of single family, multiple family and commercial / industrial lots; the development of income producing properties in Alberta; the ownership, development and management of commercial property in Western Canada including a manufactured home community in Calgary; and the ownership and management of two championship golf courses in the Edmonton area.

The Company's wholly-owned subsidiary companies are Melcor Developments Arizona, Inc., Melcor Lakeside Inc. and Stanley Investments Inc.

Land Acquisitions

Land purchases during the year were: 597 Acres in Calgary Region (including 88 acres of option lands), 285 Acres in Edmonton Region, 160 Acres in Red Deer Region, 50 Acres in Lethbridge Region and 119 Acres in Kelowna Region.

Property Development

The current year activities included the completion of Crowfoot Business Centre in Calgary, which is 95% leased as of December 31, 2002 (including occupancies to February 2003). This asset was transferred to the Investment Property Division on November 1, 2002. The division is in the planning phase for the development of sites in Spruce Grove, Leduc, Calgary and Chestermere.

Community Development

This division is responsible for purchasing and developing land to be sold as residential and commercial lots.

Property Development

This division develops income properties which, when completed, are transferred to the Investment Property Division which will hold and manage the asset.

Investment Property

The Company owns and manages a portfolio of 18 commercial properties and a 308-unit manufactured home community. During the year the Company sold a 64,173 square foot multi-use building.

Recreation Property

The Company owns and manages two 18 hole golf course operations (one of which is 60% owned).

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
