term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Messina Minerals, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Messina Minerals, Inc. business.

### **About Messina Minerals, Inc.**

Messina Minerals, Inc. engages in the acquisition, exploration, and development of mineral properties in Canada. The company primarily explores for zinc, lead, copper, silver, and gold mineral resources in Newfoundland.

#### Mishi Gold Property, Ontario

The company has an agreement with Windarra Minerals Ltd., whereby Windarra acquired its property and royalty rights pertaining to the Mishi Leases.

#### Tulks South Property, Newfoundland

The company has a 100% interest in the Tulks South property in Newfoundland. It owns the Eagle property and Costigan Lake property.

#### Long Lake Property, Newfoundland

The company has a 100% interest in certain mineral claims comprising the Long Lake property. The Long Lake property is prospective for volcanogenic massive sulphide zinc-copper-silver-gold deposits and also has potential for mesothermal gold deposits. The

Long Lake Property is located adjacent to Messina's Tulks South Property.

York Harbour Property, Newfoundland

The company has a 100% interest in 26 claims covering 650 hectares from Tenacity Gold Mining Company Limited.

Haven Steady Property, Newfoundland

The Haven Steady Property is located 15 Kilo meters southwest of Teck's Duck Pond copper-zinc mine and 75 kilo meters northeast of Messina's Boomerang deposit on the Tulks South Property. Messina acquired an option to earn a 100% interest in the Haven Steady Property from Tenacity Gold Mining Company Limited. A total of 7 holes were completed in November and December 2009 totaling 1,144.5 meters of NQ core recovered.

Skidder Property, Newfoundland

The company has the option to earn a 100% interest in the Skidder property located in central Newfoundland. It staked 73 claims covering 1,825. It owns the option to an additional 19 claims covering 475 hectares.

Victoria River Area Property, Newfoundland

The Victoria River Property is comprised of 101 contiguous mineral claims totaling 2,525 hectares.

Bobby's Pond Property, Newfoundland

The company owns the Bobby's Pond property, which consist of 7 claims totaling 175 hectares. The property covers altered felsic volcanics of the Tulks Volcanic belt and is located immediately southwest of and along strike from the Bobby's Pond (zinc) massive sulphide prospect.

Daniels Harbour Property, Newfoundland

The company has acquired 181 claims totaling 4,525 hectares by staking the Daniels Harbour Property located on the Great Northern Peninsula on the west coast of Newfoundland.

### Costigan Lake Property, Newfoundland

The Costigan Lake Property is comprised of 112 claims totaling 2,800 hectares, located in central Newfoundland between the company's Long Lake and Tulks South Properties.

### Healy Bay Property, Newfoundland

The company acquired 155 claims totaling 3,875 hectares.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
