The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of M&F Worldwide Corp. business.

About M&F Worldwide Corp.

M & F Worldwide Corp. operates as a holding company. The company provides check and check-related products, marketing, and contact center services to financial and commercial institutions, as well as directly to individual consumers in North America.

Segments

The company's segments include Harland Clarke, Harland Financial Solutions, Scantron, and Licorice Products.

Harland Clarke Holdings

The Harland Clarke segment offers checks and related products, forms and treasury supplies, and related delivery and fraud prevention services to financial services, retail and software providers. It also provides direct marketing services to their clients, including direct marketing campaigns, direct mail, database marketing, telemarketing and e-mail marketing. In addition, the Harland Clarke segment provides check-related delivery and fraud prevention services, stationery, business cards and other business and home office products to consumers and small businesses.

Products and Services

Checks and Related Products: In addition to offering basic consumer and small business checks, Harland Clarke also offers checks customized with licensed designs and characters, such as cartoon characters, collegiate designs and photographs. Harland Clarke also offers various financial documents in conjunction with consumer and small business financial software packages. Accessory products include leather checkbook covers, endorsement stamps, address labels, recording registers and other bill paying accessories. In addition, Harland Clarke also offers its clients various fraud prevention solutions.

Harland Clarke offers various delivery options, including expedited and trackable delivery. Check users often prefer expedited delivery to both receive their order sooner and for the security and tracking features that these expedited methods provide.

Harland Clarke also offers various standard financial forms and flexible formats to suit clients' needs, and the products are also compatible with image processing systems. Harland Clarke also provides treasury management supplies, such as integrated cash deposit products, customized deposit tickets and security bags.

Marketing Services: Harland Clarke also offers integrated, multi-channel marketing services that help clients measure, understand, manage and optimize their business-to-consumer and business-to-business relationships as well as their returns on marketing investments. These services include marketing strategies, such as acquisition, lead generation and nurturing, retention, activation, cross-selling and up-selling; data management and analytics; database design, development and hosting; print production and lettershop; teleservices; and online and e-mail marketing with filtering to deliver targeted messages, social media and Web analytics integration, and tools to manage enterprise and channel programs.

Customized Business and Home Office Products: In addition to various checks and related products, Harland Clarke offers consumers and small businesses customized products, including stationery, business cards, notepads, invitations, announcements, labels, rubber stamps, and envelopes.

Clients: The clients of Harland Clarke range from major national and large regional banks and securities firms to community banks, credit unions, brokerage houses, retailers and software companies. In addition, Harland Clarke clients include consumers

and small businesses. Harland Clarke contracts with its clients are generally sole-source contracts for the sale of its checks and related products to the clients' customers.

Competition: Harland Clarke competes with providers that offer products and services, including Deluxe Corporation, Harte-Hanks, Inc., and R.R. Donnelly & Sons Company.

Harland Financial Solutions

The Harland Financial Solutions segment provides technology products and services to financial services clients worldwide, including lending and mortgage compliance and origination applications, risk management solutions, business intelligence solutions, Internet and mobile banking applications, branch automation solutions and core processing systems.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
