company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Midland Capital Holdings Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Midland Capital Holdings Corp. business.

About Midland Capital Holdings Corp.

Midland Capital Holdings Corporation operates as the holding company for Midland Federal Savings and Loan Association (Midland Federal).

Midland Federal engages in the business of attracting deposits from the general public and using such deposits to originate residential mortgage and, to a lesser extent, consumer, multi-family, and other loans in its primary market area. It also has investments in short term U.S. governmental agency obligations and, to a lesser extent, mortgage-backed securities and investment securities.

Market Area

Midland Federal's primary market area consists of southwest Chicago, and the southwest suburban communities of Bridgeview, Oak Lawn, Palos Hills, Hickory Hills, Burbank, Chicago Ridge, Homer Glen, Lockport, Orland Park and Lemont which it serves through its main office in Bridgeview and three branch offices in southwest Chicago.

Lending Activities

The principal lending activity of Midland Federal includes origination of conventional first mortgage real estate loans secured by owner occupied one- to four-family residential property. Midland Federal also originates consumer, multi-family, non-residential real estate, construction and other loans.

One- to Four-Family Residential Real Estate Lending: Midland Federal's primary lending activity has been the origination and purchase of permanent loans secured by mortgages on owner-occupied one- to four-family residences. All of these loans were secured by properties located in the State of Illinois, with a majority located in Midland Federal's primary market area. Midland Federal's one- to four-family residential ARMs are fully amortizing loans with contractual maturities of up to 30 years.

Multi-Family Residential Lending: Midland Federal's multi-family residential portfolio includes loans secured by residential buildings with five or more units located in Midland Federal's primary market area. Midland Federal originates primarily adjustable-rate, multi-family real estate loans.

Consumer Lending: Midland Federal offers a variety of secured consumer loans, including educational loans (which are guaranteed from a State agency), automobile loans and loans secured by savings deposits. In addition, Midland Federal offers unsecured consumer loans through its Visa credit card program. Midland Federal originates substantially all of its consumer loans in its principal market area. Midland Federal also originates consumer loans secured by used and, to a lesser extent, new automobiles in its primary market area.

Commercial Real Estate Lending: Midland Federal maintains a portion of its portfolio in permanent loans secured by commercial real estate. Midland Federal's commercial real estate portfolio consists of loans on a variety of non-residential property, including an automobile repair center and office properties.

Mortgage-Backed Securities: Midland Federal has a portfolio of mortgage-backed securities. All of Midland Federal's mortgage-backed securities are pass-through certificates issued by federal agencies.

Investment Portfolio

Midland Federal invests in various types of liquid assets, short and medium term government securities, as well as smaller amounts of other assets.

Deposits

Midland Federal attracts principally short-term and intermediate-term deposits from its primary market area. Midland Federal offers regular passbook accounts, NOW accounts, money market deposit accounts, fixed interest rate certificates of deposit with varying maturities and rates including certificates of deposit.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
