Abstracts

Minefinders Corp. Ltd. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Minefinders Corp. Ltd. and its competitors. This provides our Clients with a clear understanding of Minefinders Corp. Ltd. position in the Industry.

The report contains detailed information about Minefinders Corp. Ltd. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Minefinders Corp. Ltd.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Minefinders Corp. Ltd. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Minefinders Corp. Ltd. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Minefinders Corp. Ltd. business.

About Minefinders Corp. Ltd.

Minefinders Corporation Ltd engages in exploration, development, and mining of precious and base metal properties. The company's properties are located in Mexico and the United States.

The company's principal mineral property interest is the Dolores property, located in Chihuahua, Mexico. In 2008, the company announced the first pour of gold and silver dore at the Dolores property.

The company also has property interests in Sonora, Mexico (the Sonora Properties). The Sonora Properties include the resource bearing La Bolsa gold and silver deposit, the Real Viejo silver prospect, and the Planchas de Plata silver prospect, each at various stages of exploration. The company has other mineral property interests in northern Mexico and in the United States which are in the early exploration stage.

Properties

The company's properties include The Dolores Property, Sonora Properties, and Property Interests in the United States.

The Dolores Property

The Dolores Mine is located in the Sierra Madre Occidental Range in the State of Chihuahua, northern Mexico. It is in the Municipality of Madera, approximately 94 km by road (45 km by air) southwest of the town of Madera, and 250 km west of the city of Chihuahua. The company, through its wholly owned Mexican subsidiary CMD, directly owns the Dolores, Silvia, and Unificacion Real Cananea concessions. Total area of concessions under control of the company is 27,700 hectares.

Sonora Properties

The company controls a 100 percent interest in the mineral rights to 31 mineral concessions totaling approximately 120,000 hectares in the State of Sonora, Mexico. These concessions are located within several different prospective precious metals mineralized trends within the state of Sonora, Mexico.

Advanced Project Areas

The company's Northern Sonora Project area encompasses approximately 28,000 hectares and includes the resource bearing La Bolsa gold project in the northwest corner of the block, the Real Viejo silver project in the central portion of the concessions, and the Planchas de Plata silver project located to the southeast.

La Bolsa Property

The La Bolsa property is located on the ABE concession in the northern part of Sonora State, Mexico, approximately 30 kilometres west of the Mexican city of Nogales, and 97 kilometres SSW of Tucson, Arizona. The property is accessed from both Nogales and Hermosillo, Mexico. As of February 2010, the company has completed 241 drill holes representing by 16,951 metres of core and 15,881 metres of reverse-circulation drilling, for a total of 32,832 metres of drilling.

Planchas de Plata and Real Viejo Property

The Real Viejo and Planchas de Plata properties are located approximately 10 kilometres from each other in northern Sonora approximately 10 kilometres southeast of the La Bolsa property. As of December 31, 2009, the company has completed a total of 61 drill holes at Real Viejo, and a total of 136 drill holes at Planchas de Plata.

La Virginia Gold / Silver District

In 2009, the company completed the consolidation of all mineral rights and surface rights necessary to drill and test the La Virginia gold/silver district in Sonora, Mexico. The company has staked mineral rights over approximately 32,000 hectares of land and has also optioned an additional 2,100 hectares of mineral rights.

Property Interests in the United States

The company has interests in claim areas in the United States, including the Dottie property in the State of Nevada, and the Oro Blanco property in the State of Arizona. The Dottie property is located in Elko County, Nevada, approximately eight miles west of Queenstake Resources' Jerrit Canyon operations. The company's Oro Blanco property in Arizona adjoins the La Bolsa property in northern Sonora.

History

Minefinders Corporation Ltd was incorporated in 1975. The company was formerly known as Twentieth Century Explorations Inc. and changed its name to Minefinders Corporation Ltd. in 1979.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
