Such information creates your awareness about principal trends of Mitie Group plc business.

About Mitie Group plc

Mitie Group plc engages in the maintenance, management, servicing, and improvement of buildings and infrastructure for its customers in U.K. The company provides services and methods of service delivery, ranging from single service contracts, such as catering, to bundled services contracts involving a selection of its services, such as cleaning, security and maintenance. The company principally operates in Scotland, North East, North West, Midlands, Wales, South West, South, South East, and London.

The company principally operates in commercial, defense, education, finance & professional services, government, healthcare, leisure & entertainment, local authority, manufacturing & Logistics, retail, science & technology, social housing, transport, and utilities sectors.

Divisions

The company operates its business in two divisions: Support Services and Building Services.

Support Services

The company's support services offer services supporting the occupiers of buildings. These range from engineering maintenance and facilities management to security. The company listens to its customers and creates solutions that meet their needs and resources.

Cleaning: The company cleans hospitals, airports, bus shelters and phone booths, provide catering for the MOD, security for the Tower of London, run business services for top City law firms, innovate in schools with the latest engineering hardware, refurbish superstars' changing rooms and manage the facilities at many manufacturing and retail sites nationwide.

Catering: Catering has contracts with IMS Healthcare, Osborne Clarke, GVA Grimley and the National Audit Office. Catering services include Hospitality & Executive Dining, Staff Feeding, and Consultancy.

Landscape: Landscape has a national contract with Lloyds TSB to maintain grounds and external areas and with Proctor and Gamble in Egham. Landscape has also started to penetrate the public sector and has added a contract with Yorkshire Metropolitan Housing Group to the existing Local Authority and Police contracts. Landscape services include Grounds Maintenance, Interior Tropical Plants, Exterior Landscape, Design & Installation, Golf Course Maintenance, Sports Ground & Leisure Facilities Maintenance, and Arboricultural Works.

Pest Control: Pest Control services include Service Contracts, Reactive Services, Insect Control, Hygiene Services, Bird Control, and Wildlife Management. Pest Control has been awarded a five-year contract with Compass. They have also been awarded work with Safestore and Thameslink. Pest Control has invested in its sales force to achieve its organic growth targets and would concentrate on multi-site retail outlets and railway-related services, in addition to its core market of smaller businesses and local markets. The company has the third major pest control business in the U.K.

Security: Security services include Static Guarding, Electronic, Mobile Guarding, Gallery Attendants, Front of House, Warden Services, Key Holding, Consultancy, and Remote Monitoring. Its contracts include CIS and Re: Sources UK (Publicis). MITIE Security (South West) started trading in September 2004 and in May 2005 the company announced the acquisition of Intruder International, Ltd ('Intruder'), which is at the forefront of developing integrated networked security solutions. MITIE Security forges long-lasting relationships by understanding and supporting its clients and its people. It achieves this by delivering on its promises of a timely and properly structured security

solution that clearly meets the requirements of its clients. The business is primarily a single service provider focused on the manned guarding sector.

Managed Services: Managed Services include Facilities Management, Building & Estate Management, Consultancy, Integrated Service Delivery, Procurement & Supplier Evaluation, PFI Service, and Delivery. Managed Services has contracts with Transport for London, 3Com, and Crown Castle. Managed Services has improved its support functions for human resources, sales and marketing, health and safety, energy management, and commercial management.

PFI: The company's PFI company provides fac

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
