Abstracts

Mohawk Industries Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Mohawk Industries Inc. and its competitors. This provides our Clients with a clear understanding of Mohawk Industries Inc. position in the [Appliances and Furniture](#) Industry.

The report contains detailed information about Mohawk Industries Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Mohawk Industries Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Mohawk Industries Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Mohawk Industries Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Mohawk Industries Inc. business.

About Mohawk Industries Inc.

Mohawk Industries, Inc. produces floor covering products for residential and commercial applications in the United States (U.S.) and residential applications in Europe.

The company manufactures carpet and rugs, and manufactures, markets, and distributes ceramic tile, natural stone and hardwood flooring in the U.S., as well as produces laminate flooring in the U.S. and Europe.

Segments

The company has operations in three segments: the Mohawk segment, the Dal-Tile segment, and the Unilin segment.

Mohawk segment

The Mohawk segment designs, manufactures, sources, distributes, and markets its floor covering product lines, which include carpets, ceramic tile, laminate, rugs, carpet pad, hardwood and resilient, in a range of colors, textures and patterns for residential and commercial applications in both new construction and remodeling. The Mohawk segment markets and distributes its carpets and rugs under its soft surface floor

covering brands and ceramic tile, laminate, hardwood and resilient under its hard surface floor covering brands. The Mohawk segment has various brand names, which include 'Mohawk', 'Aladdin,' 'Mohawk ColorCenters,' 'Mohawk Floorscapes,' 'Portico,' 'Mohawk Home,' 'Bigelow,' 'Durkan,' 'Horizon,' 'Karastan,' 'Lees,' 'Merit,' and 'Lauren Ralph Lauren'.

The Mohawk segment markets and distributes soft and hard surface products through approximately 28,000 customers, which include independent floor covering retailers, home centers, mass merchandisers, department stores, commercial dealers, and commercial end users. Some products are also marketed through private labeling programs. The Mohawk segment's soft surface operations are vertically integrated from the extrusion of resin to the manufacturing and distribution of finished carpets and rugs.

Dal-Tile segment

The Dal-Tile segment designs, manufactures, sources, distributes, and markets a line of ceramic tile, porcelain tile, natural stone, and other products used in the residential and commercial markets for both new construction and remodeling. Most of the Dal-Tile segment's ceramic tile products are marketed under the 'Dal-Tile' and 'American Olean' brand names and sold through company-owned service centers, independent distributors, home center retailers, tile and flooring retailers, and contractors. The Dal-Tile segment operations are vertically integrated from the production of raw material for body and glaze preparation to the manufacturing and distribution of ceramic and porcelain tile.

Unilin segment

The Unilin segment is a designer, manufacturer, licensor, distributor and marketer of laminate and hardwood flooring in Europe. It has developed the patented UNICLIC glueless installation system and a variety of other new technologies, such as beveled edges, multiple length planks, and new surface technologies. The company is a vertically-integrated laminate flooring manufacturer in the U.S. producing both laminate flooring and related high density fiberboard. Unilin sells its flooring products under the Quick-Step, Columbia Flooring, Century Flooring, and Universal Flooring brands through retailers, independent distributors, and home centers. Unilin also produces roofing systems, insulation panels and other wood products.

Customers

The company's commercial customer base is divided into corporate office space, educational institutions, hospitality facilities, retail space, public space, government, and health care facilities.

History

Mohawk Industries, Inc. was founded in 1988.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
