The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Monarch Services Inc. business.

About Monarch Services Inc.

Monarch Services, Inc. primarily engages in the publication of 'Girls' Life' magazine and the operation of Peerce's Plantation restaurant, bar and catering facility.

The company has two operating subsidiaries, which include Girls' Life, Inc., which publishes a magazine; and Peerce's Plantation GL, LLC, which operates a restaurant, bar and catering facility.

The Company operates in two segments: the publishing segment, and the retail segment.

Publishing Business

Girls' Life, Inc. publishes a bi-monthly magazine for young girls age ten to fifteen. 'Girls' Life' intends to be an intelligent, non-condescending and easy-to-read magazine. The magazine is printed through a national printing service company. Girls' Life magazine is published six times per year, normally two issues are published in the second and fourth calendar quarters and one issue is published in each of the first and third calendar quarters.

Girls' Life magazine subscriptions are sold through traditional sources such as direct-mail solicitation, insert cards and subscription agents. The magazine is also sold on newsstands and subscriptions can be obtained or renewed through the Internet on the Girls' Life Web site located at www.girlslife.com. Newsstand copies are distributed nationally and internationally.

Restaurant Business

The Company purchased three adjoining parcels of real estate located in Baltimore County, Maryland. The acquisition included 'Peerce's Plantation', a 350 seat fine dining restaurant, catering facility and bar with liquor license, off premise sales, an adjoining 6,000 square-foot house and 14.74 acres with a horse stable zoned for residential development. The Company considers various uses for the property which includes formal dining and entertainment.

The catering business began scheduling weddings, business meetings and other catered parties. The restaurant and catering menus are based on traditional Maryland fare with a European flavor and prices for entrees and other items.

Discontinued Retail Business

In November 2001, the company opened 'Adam Leaf and Bean', a tobacco shop selling cigars, tobacco and smokers' accessories. The tobacco shop also included a coffee shop and snack bar. In August 2004, the company closed Adam Leaf and Bean, coffee shop and snack bar.

History

Monarch Services, Inc. was incorporated in 1976.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
