Abstracts

Moody's Corp. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Moody's Corp. and its competitors. This provides our Clients with a clear understanding of Moody's Corp. position in the Industry.

The report contains detailed information about Moody's Corp. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Moody's Corp.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Moody's Corp. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Moody's Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Moody's Corp. business.

About Moody's Corp.

Moody's Corporation, through its subsidiaries, provides credit ratings and related research, data, and analytical tools; risk management software; and quantitative credit risk measures, credit portfolio management solutions, and training services in the United States, Europe, the Middle East, and Africa.

Segments

The company operates in two segments: Moody's Investors Service (MIS) and Moody's Analytics (MA).

Moody's Investors Service

The Moody's Investors Service segment publishes credit ratings on a range of debt obligations and the entities that issue such obligations in markets worldwide, including various corporate and governmental obligations, structured finance securities, and commercial paper programs. MIS provides ratings in approximately 110 countries. Ratings are disseminated via press releases to the public through various print and electronic media, including the Internet and real-time information systems used by securities traders and investors. As of December 31, 2009, MIS had ratings

relationships with approximately 12,000 corporate issuers and approximately 25,000 public finance issuers. Additionally, the company rated and monitors ratings on approximately 106,000 structured finance obligations (representing approximately 16,000 transactions).

Moody's Analytics Segment

The Moody's Analytics Segment develops a range of products and services that support the credit risk management activities of institutional participants in global financial markets. These offerings include quantitative credit risk scores, credit processing software, economic research, analytical models, financial data, securities pricing software and valuation models, and specialized consulting services. MA also distributes investor-oriented research and data developed by MIS as part of its rating process, including in-depth research on major debt issuers, industry studies, and commentary on topical events. MA clients represent approximately 4,800 institutions worldwide operating in approximately 115 countries. During 2009, Moody's research Web site was accessed by 174,000 individuals and by users representing 29,000 client relationships.

Financial Centers

The company serves its customers through its global network of offices and business affiliations. Moody's maintains rating and commercial operations in financial centers including Buenos Aires, Dubai, Frankfurt, Hong Kong, London, Madrid, Milan, Mexico City, Moscow, New York, Paris, Sao Paolo, Seoul, Singapore, Sydney, Tokyo, and Toronto.

Competition

The company's major competitor in the global credit rating business is Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies, Inc. In addition to S&P, its competitors include Fitch, Dominion Bond Rating Service Ltd. of Canada, A.M. Best Company Inc, Japan Credit Rating Agency Ltd., Rating and Investment Information Inc. of Japan, and Egan-Jones Ratings Company. It also identifies competition from LACE Financial Corp. and Realpoint LLC.

The company also competes in the financial information space against diversified competitors, such as Thomson-Reuters, Bloomberg, RiskMetrics, S&P, Fitch, Dun & Bradstreet, and Markit Group among others. MA's main competitors within RD&A include S&P, Fitch Algorithmics, CreditSights, Thomson-Reuters, Intex, IHS Global

Insight, and BlackRock Solutions. In RMS, MA faces competition from Fitch Algorithmics, SunGard, SAS, and Oracle. Within professional services, MA competes with Oliver Wyman for certain credit risk advisory services, with Omega Performance and DC Gardner.

History

Moody's Corporation was founded in 1900.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
