About Movie Gallery Inc.

Movie Gallery, Inc. operates as a home entertainment specialty retailer serving urban, rural and suburban markets in North America. As of December 1, 2008, the company owned and operated approximately 3,290 retail stores, located throughout North America that rent and sell DVDs, Blu-ray discs, and video games.

Segments and Products

The company operates in three segments: Movie Gallery, Hollywood Video, and Game Crazy.

Movie Gallery

The Movie Gallery branded stores are primarily located in small towns and suburban areas of cities with populations between 3,000 and 20,000. The average Movie Gallery store is approximately 4,200 square feet and carries a selection of approximately 15,000 movies and video games for rental, as well as new and used movies and games for sale. Stores within its Movie Gallery segment generally display movie titles, excluding new releases, in alphabetical order across various genres.

Hollywood Video

Hollywood Video branded stores are typically located in high traffic, high visibility, urban and suburban locations. Hollywood focuses on providing a selection of movies and games for rent, as well as new and used movies and video games for sale. The average Hollywood Video store is approximately 6,600 square feet and carries approximately 25,000 movies and video games. The company rents video games primarily for Sony Playstation 2 and 3, Microsoft Xbox 360 and Xbox, and Nintendo Wii and Game Cube.

Game Crazy

Game Crazy locations are primarily co-located within Hollywood Video stores, and as of January 6, 2008, 570 Hollywood Video stores included a co-located Game Crazy department. A typical Game Crazy department carries approximately 9,000 new and used video games, as well as hardware and accessories and occupies an area of approximately 700 to 900 square feet within the store. In addition, as of January 6, 2008, the company had 13 free-standing Game Crazy stores. The company offers new and used Sony Playstation 2 and 3 and PSP, Microsoft Xbox 360 and Xbox, and Nintendo Wii, Game Cube, Dual Screen, Game Boy Advance, and Game Boy hardware systems, as well as a selection of used legacy hardware systems. In addition, the company offers new and used game accessories including controllers, memory cards and game media, such as strategy guides.

Competition

The company competes with local, regional and national video retail stores, including Blockbuster, Inc.; mail-delivery video rental subscription services, such as Netflix, Blockbuster Online, and Blockbuster Total Access; video rental kiosks, such as Redbox Kiosk; specialty retailers, including GameStop and Suncoast; competitors who operate Internet-based rental services that provide online delivery, such as Apple's iTunes Store; and mail order operations and online stores, including Amazon.com. It also competes with Wal-Mart.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
