term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes MSB Financial Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of MSB Financial Corp. business.

### **About MSB Financial Corp.**

MSB Financial Corp. operates as the holding company for Millington Savings Bank, which offers various banking services in New Jersey.

#### **Lending Activities**

The company's loan portfolio includes one-to-four family residential loans, commercial real estate loans, construction loans, consumer loans, home equity, and commercial loans.

**One-to-Four Family Real Estate Mortgages:** The company's primary lending activity consists of the origination of one-to-four family first mortgage loans. It also originates fixed rate balloon mortgages with terms of 3 to 10 years and flexible amortizations. The company originates adjustable rate mortgages (ARM's) with approximately 30 year terms.

**Commercial Real Estate Mortgages:** The company's commercial real estate lending includes multi-family dwellings/apartment buildings, service/retail and mixed-use properties, churches and non-profit properties, medical and dental facilities, and other commercial real estate.

**Construction Loans:** The company originates construction and land acquisition loans for an owner-occupied residence or to a builder with a valid contract of sale. Its construction lending includes loans for construction or major renovations or improvements of owner-occupied residences.

**Consumer Loans:** The company's consumer lending products include new and used auto loans, secured and unsecured personal loans, account loans, and overdraft lines of credit.

**Home Equity Loans and Lines of Credit:** The company offers fixed rate home equity loans and variable rate home equity lines of credit. Its fixed rate home equity loans have terms of 5 to 30 years.

**Commercial Loans:** The company offers revolving lines of credit to businesses to finance short-term working capital needs like accounts receivable and inventory. It also originates commercial term loans to fund longer-term borrowing needs, such as purchasing equipment, property improvements, or other fixed asset needs. These loans are secured by new and used machinery, equipment, fixtures, furniture, or other long-term fixed assets. The company originates commercial term loans for other general long-term business purposes, and these loans are secured by real estate.

## Deposits

The company offers various deposit products, including checking and savings accounts, certificates of deposit, and fixed or variable rate individual retirement accounts. Its savings account menu includes regular passbook, statement, money market, and club accounts.

## Investment Portfolio

The company invests primarily in mortgage-backed securities, U.S. government obligations, and U.S. government agency issued securities.

## History

MSB Financial Corp. was founded in 1911.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
