## **Abstracts**

Murata Manufacturing Co. Ltd. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Murata Manufacturing Co. Ltd. and its competitors. This provides our Clients with a clear understanding of Murata Manufacturing Co. Ltd. position in the [Computers and Electronic Equipment](#) Industry.

The report contains detailed information about Murata Manufacturing Co. Ltd. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Murata Manufacturing Co. Ltd.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Murata Manufacturing Co. Ltd. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios

pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Murata Manufacturing Co. Ltd. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Murata Manufacturing Co. Ltd. business.

### **About Murata Manufacturing Co. Ltd.**

Murata Manufacturing Co., Ltd. and its subsidiaries engage in the development, manufacturing and sales of electronic components and related products, such as capacitors, piezoelectric components, microwave devices and module products. Its products are sold mainly to electronics companies for use as components in telecommunication, computer, audio, video and other electronic products. As of March 31, 2005, the company had 54 subsidiaries.

The company manufactures semi-finished products for various electronic components and supplies them to its manufacturing subsidiaries in Japan and abroad. It also sells finished products, which are manufactured by the companies, to customers in Japan and abroad, and to its overseas sales subsidiaries.

### **Products**

**Capacitors:** This product category includes monolithic ceramic capacitors, ceramic disc capacitors and trimmer capacitors. It also offers multilayer ceramic chip capacitor, which is primarily used for mobile phones.

**Resistors:** This product category includes thermistors, trimmer potentiometers, resistor networks and high-voltage resistors used for telecommunications equipment, and consumer electronic equipment, primarily CRT displays.

**Piezoelectric Components:** This product category includes ceramic filters, ceramic resonators, surface acoustic wave filters and piezoelectric buzzers.

**Microwave Devices:** This product category includes multilayer ceramic devices, dielectric filters, isolators and connectors. It also offers Bluetooth modules.

**Module Products:** This product category includes circuit modules and various types of power supplies. It also offers voltage control oscillators (VCOs) for telecommunications equipment in Europe. Its power supplies are used for consumer electronic equipment, such as PDP and LCD televisions and for telecommunications equipment.

**Other Products:** This product category includes EMI suppression filters and various types of sensors and coils.

## Sales

Murata operates in Asia, North America, South America, and Europe, as well as Japan, and China, including Hong Kong.

## Customers

The company's customer base includes clients in the telecommunication, software, electronic, and electrical industries.

## Significant Events

Cap-XX Limited announced the signing of a contract with Murata Manufacturing Co. Ltd. to jointly develop and supply high performance supercapacitors for mobile handsets and other peak power-hungry, space-constrained portable applications.

## History

Murata Manufacturing Co., Ltd. was founded 1944.

The above Company Fundamental Report is a half-ready report and contents are

subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

### **1. MURATA MANUFACTURING CO. LTD. COMPANY PROFILE**

- 1.1. Key facts
- 1.2. Financial Performance
- 1.3. Key Executives
- 1.4. Ownership and Major Holders
- 1.5. Company History

### **2. MURATA MANUFACTURING CO. LTD. BUSINESS OVERVIEW**

- 2.1. Business Description
- 2.2. Major Products and Services
- 2.3. Markets and Sales Activities
- 2.4. Locations, Subsidiaries, Operating Units

### **3. MURATA MANUFACTURING CO. LTD. SWOT ANALYSIS**

- 3.1. Overview
- 3.2. Strengths
- 3.3. Weaknesses
- 3.4. Opportunities
- 3.5. Threats

### **4. MURATA MANUFACTURING CO. LTD. FINANCIAL ANALYSIS**

- 4.1. Financial Statements
  - 4.1.1. Income Statement
  - 4.1.2. Balance Sheet
  - 4.1.3. Cash Flow
- 4.2. Financial Ratios
  - 4.2.1. Profitability
  - 4.2.2. Margin Analysis

- 4.2.3. Asset Turnover
- 4.2.4. Credit Ratios
- 4.2.5. Long-Term Solvency
- 4.2.6. Growth Over Prior Year
- 4.2.7. Financial Ratios Charts
- 4.3. Stock Market Snapshot

## **5. MURATA MANUFACTURING CO. LTD. COMPETITORS AND INDUSTRY ANALYSIS**

- 5.1. Murata Manufacturing Co. Ltd. Direct Competitors
- 5.2. Comparison of Murata Manufacturing Co. Ltd. and Direct Competitors Financial Ratios
- 5.3. Comparison of Murata Manufacturing Co. Ltd. and Direct Competitors Stock Charts
- 5.4. Murata Manufacturing Co. Ltd. Industry Analysis
  - 5.4.1. Computers and Electronic Equipment Industry Snapshot
  - 5.4.2. Murata Manufacturing Co. Ltd. Industry Position Analysis

## **6. MURATA MANUFACTURING CO. LTD. NEWS & EVENTS**

- 6.1. News & PR Activity Analysis
- 6.2. IR Corporate News
- 6.3. Marketing News
- 6.4. Corporate Events

## **7. MURATA MANUFACTURING CO. LTD. EXPERTS REVIEW<sup>1</sup>**

- 7.1. Experts Consensus
- 7.2. Experts Revisions

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
