## Abstracts

Murgor Resources Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Murgor Resources Inc. and its competitors. This provides our Clients with a clear understanding of Murgor Resources Inc. position in the Industry.

The report contains detailed information about Murgor Resources Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Murgor Resources Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Murgor Resources Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Murgor Resources Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Murgor Resources Inc. business.

### **About Murgor Resources Inc.**

Murgor Resources Inc., a mineral exploration company, engages in the exploration and development of mining properties in Canada. The company explores for copper, zinc, gold, and silver metals.

#### Properties

The company focuses its exploration activities on properties of the Flin Flon belt in northern Manitoba and Saskatchewan with emphasis on the Hudvam and Wim properties in Manitoba.

#### Manitoba

The Hudvam property: The company has an option to earn a 100% interest in the Hudvam property. The property is located in Manitoba, approximately 47 kilometers northeast of the town of Flin Flon. The property covers an area of approximately 17 square kilometers.

The Wim property: The Wim property is located in Manitoba, approximately 16 kilometers north of the Town of Snow Lake. The company has an option to earn a 100%

interest in the Wim Property (two claim groups covering approximately 12 square kilometers). It also holds a 100% interest in nine claims staked by it to cover the strike extensions of the Wim deposit. This portion of the property covers an additional 19 square kilometer area and is referred to as the Wim Extension property. The property covers approximately 31 square kilometers in two claim groups.

**The Snow-H project:** The Snow-H project is located in Manitoba, east and north-east of the Town of Snow Lake. The company holds a 100% interest in three claims (560 hectares) covering the Bee Zone project NE of the town of Snow Lake, and another four claims (666 hectares) covering the strike extensions of the Watts River deposit. The Snow-H Project consists of three claims covering the Bee Zone project NE of Snow Lake mining district, and another four claims covering the strike extensions of the Watts River deposit.

## Saskatchewan

**The Fon property:** The Fon property is located in Saskatchewan, approximately 40 kilometers west of the town of Flin Flon. The company can earn 100% interest in the Fon property (24 claims covering 24 square kilometers). It also holds a 100% interest in four claims covering the strike extensions of both the Fon and Abbott Lake deposits. This portion of the property covers an additional 14.4 square kilometers.

**The Flin-D Project and Tyr Property:** The southeast corner of the Flin-D project is located in Saskatchewan, 16 kilometers to the west-north-west of the town of Flin Flon. The company holds a 100% interest in 10 claims that cover 4,483 hectares.

## Quebec

**The Barry Gold Property:** The Barry property is located approximately 100 kilometers east of the town of Lebel-Sur-Quevillon and 180 kilometers southwest of the town of Chibougamau in the Province of Quebec. The property consists of 250 claims and one mining lease covering 4,011 hectares.

**The Windfall Gold Property:** The Windfall property is located approximately 100 kilometers east of the town of Lebel-Sur-Quevillon and 180 kilometers southwest of the town of Chibougamau in the Province of Quebec. The property which consists of 213 claims and covers 8,995 hectares, is held jointly by the company and Freewest Resources Canada Inc.

The Nelligan Gold Property: The company owns a 100% interest in the Nelligan gold Property in north-western Quebec. The property consists of 58 mining claims covering 2,880 hectares and located in Nelligan, Benoit, and Lesueur Townships, approximately five kilometers southwest of the town of Desmaraisville and the Bachelor Lake Gold Mine and mill.

The Eagle River Gold-Copper-Zinc Property: The Eagle River property is located approximately 110 kilometers east of the town of Lebel-Sur-Quevillon and 170 kilometers southwest of the town of Chibougamau in the Province of Quebec. The property which consists of 30 claims that cover 1,691 hectares, is held jointly by Murgor and Freewest Resources Canada Inc.

The La Trève Pge-Cu-Ni Property: The La Trève PGE-Cu-Ni Properties consist of 266 claims that cover 6,771 hectares in the Berey, Lantagnac, Guettard, and Daine Townships, approximately 80 kilometers west-north-west of the Chibougamau Mining District in northwestern Quebec. The La Trève I (94 claims) property is owned 100% by the company. The remaining 172 claims, comprising the La Trève

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
