The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of myContactCard, Inc. business.

### **About myContactCard, Inc.**

Jamaica Jim, Inc., a development stage company, provides Web-based subscription email signature services.

#### Products

##### Email Signatures

The company has developed a proprietary Web-based subscription application for email digital signature contact cards, which provides email users the functionality commonly found in Web sites and adapts these features directly into the subscribers email to improve how they communicate and network via email. It provides a Web-based subscription email signature service applicable to approximately 1.2 billion email users and compliments the approximately 5 billion Web sites.

The company's product line up consists of five primary categories each designed to appeal to a range of audience, including CauseMail for non-profits; BuzzMail for music, artists, and sports; premium business & personal packages; enterprise multi-user programs; and microsite card programs for premium & enterprise. By adding myContactCard's signature cards, the company's subscribers email is automatically

adapted to include downloadable files, links, videos, music, photos, digital documents, search tools, and other clickable applications.

The company's MyContactCard products and services are sold through various channels, including its direct sales group, social network sites (MySpace, Facebook, and Twitter), and in conjunction with resellers, affinity partners, and sales networks. myContactCard is sold to six markets, including individual personal and business users, cause-related supporters and organizations, music and entertainment artists and fans, small business organizations, and large, multi-user/global/ governmental organizations.

### CRM Software

The company also provides Mosaic CRM, which provides a sales management and customer support system applicable to multi-user organizations. Mosaic CRM is also accessible by hand held mobile devices, such as BlackBerry and iPhone.

### Competition

The company's competitors include StationaryCentral.com; Selfkey - Always Current Business Card; eBrandit.com; Emailideas.com; OnLetterhead.com; and IncrediMail.com.

### History

Jamaica Jim, Inc. was founded in 2008.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
