Abstracts

NanoTech Entertainment, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between NanoTech Entertainment, Inc. and its competitors. This provides our Clients with a clear understanding of NanoTech Entertainment, Inc. position in the Industry.

The report contains detailed information about NanoTech Entertainment, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for NanoTech Entertainment, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The NanoTech Entertainment, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes NanoTech Entertainment, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of NanoTech Entertainment, Inc. business.

About NanoTech Entertainment, Inc.

NanoTech Entertainment, Inc. operates as a virtual manufacturer, developing technology and games, and then licensing them to third parties for manufacturing and distribution principally in the United States. The company primarily serves coin-op/arcade, casino gaming, and consumer entertainment markets.

Products

MultiPin: The company's MultiPin replaces the mechanical parts of a pinball machine and solves two problems of pinball machines, including the elimination of mechanical failures, which are common amongst pinball machines. Secondly, it provides a multi-game platform that would be constantly updated with new games without having to swap out the machine.

Xtreme Rally Racing: The Xtreme Rally Racing is a driving machine that features three modes of game play, including Xtreme Off-Road, which is a race head to head against other players and the computer to checkpoints while driving anywhere on the map with no preset course; Timed Rally Stages, which is a classic rally racing on real world courses; and Xtreme Stadium Racing, which is a custom stadiums designed for xtreme racing, including a figure eight multi-lap course with huge jumps.

NanoNET Online System: Local and worldwide head to head competition in real time against machines located around the world.

Pinball Wizard: The official Visual Pinball forum has approximately 155,000 members, and the free version Future Pinball has been downloaded approximately one million times.

Mot-Ion Adapter: The Mot-Ion adapter is a USB adapter that allows do it yourself pinball enthusiasts to build their own cabinet using real pinball controls providing analog inputs for nudging and bumping. This kit includes everything needed to connect a pinball cabinet to a PC. (I/O board, digital plunger, and wiring harness).

Opti-Gun Adapter: The OptiGun adapter is a USB adapter that allows players to connect arcade light guns to a USB based system. This universal adapter provides a complete solution to implement an arcade game, including gun inputs, force feedback outputs, digital inputs, and built in audio amplifier. The adapter can also be used with PC based emulators, such as M.A.M.E. to connect arcade light guns on the home system.

Retr-IO Adapter: The Retr-IO adapters provide a JAMMA interface for USB based systems. This universal adapter provides solutions to implement an arcade game using joysticks, trackballs, spinners, buttons and features digital outputs, and built in audio and video amplifiers.

Competition

The company identifies competition from Stern Pinball.

History

NanoTech Entertainment, Inc. was founded in 2007.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
