Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of National Holdings Corp. business.

About National Holdings Corp.

National Holdings Corporation, a financial services organization, through its subsidiaries, engages in national securities brokerage business through main offices in New York, New York, Boca Raton, Florida, and Seattle, Washington. The company's broker dealer subsidiaries include National Securities Corporation, vFinance Investments, Inc., and EquityStation, Inc.

Services

The company offers full service retail brokerage to approximately 46,000 retail, high net worth and institutional clients; provides investment banking, merger, acquisition, and advisory services to micro, small, and mid-cap high growth companies; and engages in trading securities, including making markets in approximately 4,100 micro and small cap stocks and provides liquidity in the United States treasury marketplace. Its brokers operate primarily as independent contractors.

Brokerage Services

The company's broker dealer subsidiaries are each registered as a broker-dealer with the Securities and Exchange Commission and are licensed in 50 states, the District of

Columbia and Puerto Rico. The brokerage services provided by its investment executives include execution of purchases and sales of stocks, bonds, mutual funds, annuities, and various other securities for individual and institutional customers.

Principal and Agency Transactions

The company buys and maintains inventories in equity securities as a 'market-maker' for sale of those securities to other dealers and to its customers. It would also maintain inventories in corporate, government, and municipal debt securities for sale to customers.

Investment Banking

The company provides corporate finance and investment banking services, including underwriting the sale of securities to the public and arranging for the private placement of securities with investors. Its corporate finance operations provide a range of financial and corporate advisory services, including mergers and acquisitions, project financing, capital structure, and specific financing opportunities. The company also acts as an underwriter of equity securities in both initial and secondary public offerings.

Institutional Services

The company provides institutional investment managers, primarily hedge fund managers, an array of services designed to improve portfolio performance. It offers fund managers access to advanced direct market access trading platforms, investment opportunities, and independent research products. Additionally, it offers fund managers the ability to reduce their transaction costs by offering them access to its trading desk for illiquid securities and automated trading systems for their liquid transactions. The company has a mutually beneficial relationship with its Investment Banking Division (IBD) as fund managers looking for investment opportunities fund IBD's corporate clients. As of September 30, 2010, the company serviced approximately 200 institutional customers, of which approximately 85 were hedge funds.

History

National Holdings Corporation was founded in 1947.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
