Such information creates your awareness about principal trends of National Lampoon Inc. business.

About National Lampoon Inc.

National Lampoon, Inc. engages in the development, production, and distribution of National Lampoon branded comedic content through various media platforms.

The company's media platforms include: hosting 60 Internet Websites through which it sells advertising space and branded products; licensing both its name and comedic content from its library for various uses, including movies, television programming, radio broadcasts, recordings, electronic games and live events; reaching approximately 2 million college students in their dormitories and other places of residence through National Lampoon Network, its network of approximately 200 affiliated college and other television stations; and develops and writes comedic content and licenses its brand for the publication of National Lampoon books.

Motion Picture Production and Distribution

The company produces feature films. The company has 14% interest in Red Rock Pictures Holdings, Inc. (Red Rock). Red Rock provides financing and consulting services related to the production and exploitation of motion pictures. It completed production on two films in partnership with Red Rock, National Lampoon's Bag Boy and National Lampoon's Ratko, the Dictator's Son. It has distribution rights for seven films

produced by unrelated third parties.

The company has an interest in National Lampoon Clubhouse, Inc., a production entity, which produced the film *Monster Night aka Trick or Treat*. During 2007, the company licensed the domestic and foreign video sales to a sub-distributor. It has motion picture output agreements with a domestic home video distributor and a cable television broadcast company. The company has agreements with independent third parties for the limited platform theatrical release and subsequent distribution of its films to home entertainment. As of July 31, 2008, the company released five films into a limited number of theaters to promote the rental and sale on DVD.

National Lampoon Networks

National Lampoon Networks, Inc. (NLN) includes the company's Internet, television and field marketing activities. The company has customers in various industries, including the beverage, motion pictures, mobile phone and pharmaceutical industries. NLN's Internet properties consist of various Internet destination sites, including NationalLampoon.com, DrunkUniversity.com, TOGATV.com, and KnuckleheadVideo.com. These destination sites are also part of the National Lampoon Humor Network, an aggregated network of humor destinations on the Internet. The company's National Lampoon online networks has approximately 200 affiliate Websites and have acquired or launched approximately 60 Websites.

The company launched the National Lampoon Video Network where it entered into content distribution agreements with various Internet video portals, including AOL, Joost, Veoh, Yahoo!, YouTube and others. Its video network partners sell advertising space, including video streaming. NLN's television activities include delivering programming during the standard academic school year to approximately 200 affiliated college and other television stations, reaching approximately two million college students in their dormitories and other places of residence. NLN develops, produces and distributes comedic Internet and television programming to audiences through its network.

Publishing

As of July 31, 2008, the company had released 12 books, including National Lampoon's *Saddam Dump [Saddam Hussein's Trial Blog]*, National Lampoon's *Magazine Rack*, National Lampoon's *Jokes Jokes Jokes*, National Lampoon's *Not Fit For Print*, National Lampoon's *Favorite Cartoons of the 21 st Century*, National Lampoon's *Van Wilder*

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
