Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Nestor Healthcare Group plc business.

About Nestor Healthcare Group plc

Nestor Healthcare Group plc is an independent provider of personnel and service solutions to the health and social care market in UK. The Group serves as a partner for organisations providing short or long-term health and social care for the community.

Through its Healthcare Personnel division, the Group company delivers focused and cost-effective solutions to industry shortages and growing demand, providing both temporary and permanent staff to the UK's health and care sector. The Healthcare Services division addresses key NHS issues through managed healthcare services, innovation and access to professional personnel.

The Group has organized its UK business into two divisions: Personnel and Services.

Personnel Companies

At Home Care

At Home Care provides nationwide domiciliary care to both Social Services clients and privately funded individuals.

BNA

BNA is a supplier of nursing and care professionals to a wide range of institutions.

BNA UK Healthcare Experts incorporating Care Assessment Services

BNA UK Healthcare Experts provides professional medico-legal support and expert witness services to the courts for both claimants and defendants in personal injury and clinical negligence litigation.

BNA Home Care Services

BNA Home Care Services provide care purchased through local authority Social Services departments, to people (service users) in their own homes.

Brent Care at Home

Brent Care at Home, is an in-house home care service for Brent Council; it is an externalisation of an entire elderly homecare service by a local authority.

Carewatch Care Services

Carewatch provides services to people needing care and support in their own home either directly to the individual or via Social Services departments.

CM2000

CM2000 CallConfirm uses integrated computer telephone technology to log, analyse and report client visits and carer performance, eliminating the need for timesheets. CM2000's managed service uses patented features developed for independent sector home care providers and local authorities.

Cornelle

Cornelle UK Medical Services supply doctors of all grades and specialities to the NHS and private hospitals as well as GP's to practices and prisons.

Country Cousins

Country Cousins is a nationwide specialist in the introduction of self-employed carers and companions to the elderly and those convalescing in their own homes.

Goldsborough Home Care

Goldsborough provides a range of home care support services to individuals in their own homes.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
