The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Nevada Gold & Casinos Inc. business.

### **About Nevada Gold & Casinos Inc.**

Nevada Gold & Casinos, Inc. is a developer, owner and operator of gaming facilities in Colorado and Washington.

#### Properties

The company's wholly owned and operated properties include Colorado Grande Casino in Cripple Creek, Colorado; the Crazy Moose Casinos in Pasco and Mountlake Terrace, Washington; Coyote Bob's Roadhouse Casino in Kennewick, Washington; the Silver Dollar Casinos in Seatac, Mill Creek, and Renton, Washington; the Club Hollywood located in Shoreline, Washington; the Royal Casino located in Everett, Washington; and the Golden Nugget Casino located in Tukwila, Washington.

The company has an interest in Buena Vista Development Company, LLC, which is working with the Buena Vista Rancheria of Me-Wuk Indians on a Native American casino project to be developed in the city of Lone, California. It has a signed management agreement including equity participation for development of a casino and hotel immediately adjacent to the Las Vegas Motor Speedway.

## Commercial Casino Projects

The Colorado Grande Casino-Cripple Creek: The company owns and operates Colorado Grande Casino, which consists of approximately 191 slot machines, 4 table games, 2 restaurants with bars, and 44 parking spaces. Cripple Creek is 40 miles west of Colorado Springs, Colorado, which is 65 miles south of Denver, Colorado.

Nevada Gold Washington – Washington State: In 2009, the company purchased three mini-casinos in Washington State. The three casinos are the Crazy Moose Casino, located in Pasco, Coyote Bob's Roadhouse Casino, located in Kennewick, and the Crazy Moose Casino, located in Mountlake Terrace in close proximity to Seattle. Combined, the facilities have approximately 40 table games, including blackjack, Pai Gow poker, Baccarat, Spanish 21, Blackjack-Double Action, Ultimate Holdem, and Three and Four card poker. Additional banked table games are permitted along with poker and pull tabs. Each casino includes a service restaurant with bar. The 3 casinos have approximately 306 parking spaces.

Nevada Gold Washington II – Washington State: In July 2010, the company acquired six casinos, and their related operating center. The casinos are the Silver Dollar Seatac, the Silver Dollar Renton, the Silver Dollar Mill Creek, Club Hollywood, located in Shoreline, the Royal Casino, located in Everett, and the Golden Nugget Casino, located in Tukwila, collectively 'Silver Dollar Casinos'. All of the casinos are located in western Washington.

## Other Assets

Gold Mountain Development: Through its wholly-owned subsidiary, Gold Mountain Development, L.L.C., the company owns approximately 265 acres of real property in the vicinity of Black Hawk, Colorado.

Nevada Gold Speedway, LLC: Through its wholly owned subsidiary, NG Speedway, LLC, the company has signed management and technical services contracts for the development and management of a hotel and casino adjacent to the Las Vegas Motor Speedway in North Las Vegas.

## History

Nevada Gold & Casinos, Inc. was founded in 1977.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
