The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of New England Bancshares Inc. business.

### **About New England Bancshares Inc.**

New England Bancshares, Inc. operates as the holding company for New England Bank, which provides commercial banking products and services in Connecticut.

#### Market Area

The company conducts its operations through its 15 full service banking offices, including its main office and 1 additional branch office in Enfield and its branch offices in Bristol, Broad Brook, Cheshire, East Windsor, Manchester, Ellington, Southington, Suffield, Terryville, Wallingford, and Windsor Locks, Connecticut.

#### Lending Activities

The company's loan portfolio primarily consists of residential real estate loans and commercial real estate loans. Its loan portfolio also includes commercial loans, construction loans, and consumer loans. The company originates loans for investment purposes.

**Residential Loans:** The company originates fixed-rate amortizing loans with maturities ranging between 10 and 30 years. It offers mortgage loans that conform to Fannie Mae

and Freddie Mac guidelines, as well as jumbo loans. It also offers adjustable-rate mortgage loans.

**Home Equity Loans and Lines of Credit:** The company offers home equity loans and home equity lines of credit, both of which are secured by owner-occupied one- to four-family residences.

**Commercial Real Estate Loans:** The company originates commercial real estate loans that are generally secured by properties used for business purposes, such as small office buildings, industrial facilities, or retail facilities primarily located in its primary market area.

**Construction Loans:** The company makes construction loans for commercial and residential development projects. The projects include subdivision, multi-family, apartment, small industrial, retail, and office buildings. It originates construction loans to individuals for the construction and acquisition of personal residences.

**Commercial Loans:** The company makes commercial business loans primarily in its market area to various professionals, sole proprietorships, and small businesses. Commercial lending products include term loans, revolving lines of credit, and small business administration guaranteed loans.

**Consumer Loans:** The company offers fixed rate loans secured by mobile homes. It also offers fixed-rate automobile loans for new or used vehicles. Other consumer loans include secured and unsecured personal loans.

## Investment Portfolio

The company primarily invests in U.S. agency obligations; collateralized mortgage obligations, mortgage-backed securities; and municipal obligations.

## Deposits

The company offers a selection of deposit instruments, including non interest-bearing demand accounts (such as checking accounts), interest-bearing demand accounts (such as NOW and money market accounts), passbook and savings accounts, and certificates of deposit. In addition to accounts for individuals, it also offers deposit accounts designed for the businesses operating in its market area. Its business banking deposit products and services include a non-interest-bearing commercial checking

account, a NOW account for sole proprietors, and a commercial cash management account for larger businesses.

## History

New England Bancshares, Inc. was founded in 1999.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
