The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes New Jersey Resources Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of New Jersey Resources Corp. business.

About New Jersey Resources Corp.

New Jersey Resources Corporation (NJR), an energy services holding company, provides retail and wholesale energy services to customers in states from the Gulf Coast to the New England regions, including the mid-continent region, the west coast, and Canada.

Segments

The company operates in two segments: Natural Gas Distribution and Energy Services. The Natural Gas Distribution segment consists of regulated energy and off-system, capacity and storage management operations, and the Energy Services segment consists of unregulated wholesale energy operations.

Subsidiaries and Businesses

New Jersey Natural Gas (NJNG), a local natural gas distribution company that provides regulated retail natural gas service to approximately 487,000 residential and commercial customers in central and northern New Jersey and participates in the off-system sales and capacity release markets. NJNG comprises the company's Natural Gas Distribution segment.

NJR Energy Services (NJRES) is the company's principal non-utility subsidiary. It maintains and transacts around a portfolio of physical assets consisting of natural gas storage and transportation contracts. Also, NJRES provides wholesale energy management services to other energy companies. NJRES comprises the company's Energy Services segment.

The company also has retail and other operations (Retail and Other), which includes the following companies:

NJR Energy Investments (NJREI), an unregulated affiliate that consolidates the company's unregulated energy-related investments. NJREI includes the following wholly owned subsidiaries: NJR Energy Holdings, a company that invests primarily in energy-related ventures through its subsidiary, NJNR Pipeline (Pipeline), which holds the company's 5.53 percent interest in Iroquois Gas and Transmission System, LP (Iroquois) and another subsidiary, NJR Storage Holdings Company, which owns NJR Steckman Ridge Storage Company, which holds the company's 50 percent combined interest in Steckman Ridge GP, LLC and Steckman Ridge, LP (Steckman Ridge), a natural gas storage facility that has been developed with a partner in western Pennsylvania.

NJR Investment, a company that makes and holds certain energy-related investments, primarily through equity instruments of public companies.

NJR Energy Corporation (NJR Energy), a company that invests in energy-related ventures.

NJR Clean Energy Ventures, a subsidiary formed in 2009, which the company plans to use to invest in clean energy projects.

NJR Retail Holdings (Retail Holdings), an unregulated affiliate that consolidates the company's unregulated retail operations. Retail Holdings consists of the following wholly owned subsidiaries:

NJR Home Services (NJRHS), a company that provides heating, ventilation and cooling (HVAC) service repair and contract services.

Commercial Realty & Resources (CR&R), a company that holds and develops commercial real estate.

NJR Plumbing Services (NJRPS), a company that provides plumbing repair and installation services.

Natural Gas Distribution

NJNG provides natural gas service to approximately 487,000 customers. Its service territory encompasses 1,516 square miles, covering 105 municipalities. NJNG's service territory is in New Jersey's Monmouth and Ocean counties and parts of Burlington, Morris, and Middlesex counties. NJNG maintains agreements for firm transportation and storage capacity with several interstate pipeline companies. NJNG receives natural gas at eight city gate stations located in Middlesex, Morris and Passaic counties in New Jersey.

The pipeline companies that provide firm contract transportation service for NJNG are ANR Pipeline Company, Iroquois Gas Transmission System, Tennessee Gas Pipeline, Dominion Transmission Corporation, and Columbia Gulf Transmission Company. In addition, NJNG has storage and related transportation contracts that provide additional maximum daily deliverability to NJNG's city gate stations of 102,941 dths from storage fields in its northeast market area.

Energy Services

NJRES provides unregulated wholesale energy services and engages in the business of optimizing natural gas storage and transportation assets. These activities are conducted in the market areas which include states from the Gulf Coast and mid-continent regions to the Appalachian and northeast regions, the west coast, and Canada. NJRES has built a portfolio of customers, including local distribution companies, industrial companies, electric generators, retail aggregators, and other wholesale marketing companies.

Retail and Other

Retail and Other operations consist primarily of the following unregulated affiliates:

NJRHS, which provides service, sales and installation of appliances;

NJR Energy Holdings, a company that invests in energy-related ventures through its subsidiary, Pipeline, which consists primarily of its 5.53 percent equity investment in

Iroquois, which is a 412-mile natural gas pipeline from the New York-Canadian border to Long Island, New York;

NJR Steckman Ridge Storage Company holds the company's 50 percent equity investment in Steckman Ridge. Steckman Ridge is a partnership, jointly owned and controlled by subsidiaries of the company and subsidiaries of Spectra Energy Corporation;

CR&R holds and develops commercial real estate. As of September 30, 2009, CR&R's real estate portfolio consisted of 31 acres of undeveloped land in Monmouth County and a 56,400-square-foot office building on 5 acres of land in Monmouth County;

NJR Investment, a company that makes and holds certain energy-related investments, primarily through equity instruments of public companies: NJR Energy, a company that invests in energy-related ventures; and NJR Service, which provides shared administrative and financial services to the company and all its subsidiaries.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
