Abstracts

Newmont Mining Corp. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Newmont Mining Corp. and its competitors. This provides our Clients with a clear understanding of Newmont Mining Corp. position in the [Metals and Mining](#) Industry.

The report contains detailed information about Newmont Mining Corp. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Newmont Mining Corp.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Newmont Mining Corp. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Newmont Mining Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Newmont Mining Corp. business.

About Newmont Mining Corp.

Newmont Mining Corporation engages in the production of gold in the United States, Australia, Peru, Indonesia, Ghana, Canada, New Zealand, and Mexico.

Segments

The company operates through four segments: North America, South America, the Asia Pacific, and Africa.

The North America segment consists primarily of Nevada, La Herradura in Mexico and Hope Bay in Canada. The South America segment consists primarily of Yanacocha and Conga in Peru. The Asia Pacific segment consists primarily of Batu Hijau in Indonesia, Boddington in Australia and other smaller operations in Australia/New Zealand. The Africa segment consists primarily of Ahafo and Akyem in Ghana.

North America

Nevada, USA: Nevada operations include Carlin, located west of the city of Elko, the Phoenix mine, located 10 miles south of Battle Mountain, the Twin Creeks mine, located approximately 15 miles north of Golconda, and the Midas mine near the town of the

same name. The company also participates in the Turquoise Ridge joint venture with a subsidiary of Barrick Gold Corporation (Barrick), which utilizes mill capacity at Twin Creeks.

With respect to a significant portion of the Gold Quarry mine at Carlin, the company owns a 10% undivided interest in the mineral rights and leases the remaining 90%. The company has a 25% interest in a joint venture with Barrick in the Turquoise Ridge mine. The company has ore sale agreements with Barrick and Yukon-Nevada Gold Corporation to process the company's ore. The company has sales and refining agreements with Gerald Metals, Peñoles, Johnson Matthey, Just Refiners, and Glencore to process intermediate gold bearing product.

Mexico: The company has a 44% interest in La Herradura, which is located in Mexico's Sonora desert. La Herradura is operated by Fresnillo PLC (which owns the remaining 56% interest) and comprises open pit operations with run-of-mine heap leach processing.

Hope Bay, Canada. The company owns 100% of the Hope Bay project, an undeveloped gold project in the Nunavut Territory of Canada.

South America

Yanacocha, Peru: The properties of Minera Yanacocha S.R.L. (Yanacocha) are located approximately 375 miles (604 kilometers) north of Lima and 30 miles (48 kilometers) north of the city of Cajamarca, in Peru. The company holds a 51.35% interest in Yanacocha with the remaining interests held by Compañía de Minas Buenaventura, S.A.A. (Buenaventura) (43.65%) and the International Finance Corporation (5%). Yanacocha has mining rights with respect to a land position consisting of concessions granted by the Peruvian government to Yanacocha and a related entity. Yanacocha has three active open pit mines, Cerro Yanacocha, La Quinua and Chaquicocha. Yanacocha has four leach pads, three processing facilities, and one mill.

Conga, Peru: The Conga project (51.35% owned) is located with in close proximity of existing operations at Yanacocha.

Asia Pacific

Australia/New Zealand

Boddington: Boddington (100% owned) is located 81 miles (130 kilometers) southeast of Perth in western Australia. As of December 31, 2009, Boddington sold 103,300 ounces of gold, including 8,200 incremental start-up ounces, and 9.0 million pounds of copper.

Jundee: Jundee (100% owned) is situated approximately 435 miles (700 kilometers) northeast of Perth in western Australia. Jundee sold 412,300 ounces of gold in 2009.

Kalgoorlie: Kalgoorlie (50% owned) comprises the Fimiston open pit (commonly referred to as the Super Pit) and Mt. Charlotte underground mine at Kalgoorlie-Boulder, 373 miles (600 kilometers) east of Perth in western Australia. The mines are managed by Kalgoorlie Consolidated Gold Mines Pty Ltd for the joint venture owners, Newmont and Barrick. During 2009, the Kalgoorlie operations sold 335,800 equity ounces of gold.

Tanami: Tanami (100% owned) includes the Granites treatment plant and associated mining operations, which are located in the northern Territory approximately 342 miles (550 kilometers) northwest of Alice Springs, adjacent to the Tanami highway, and the Dead Bullock Soak mining operations, approximately 25 miles (40 kilometers) west of the Granites. Operations are predominantly

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
