pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Nobel Learning Communities Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Nobel Learning Communities Inc. business.

### **About Nobel Learning Communities Inc.**

Nobel Learning Communities, Inc. operates a network of nonsectarian private schools, including preschools, elementary schools, middle schools, and specialty high schools in 15 states and the District of Columbia. In addition, the company operates a K-12 distance learning online college prep school.

The company provides private education, with small schools and class sizes and attention to individual learning styles. It also offers an array of supplemental educational services, including before-and-after-school programs, the Camp Zone summer program, learning support programs, and camps. The company's schools operate under various brand names and are located in the District of Columbia, Arizona, California, Florida, Illinois, Maryland, Nevada, New Jersey, North Carolina, Ohio, Oregon, Pennsylvania, South Carolina, Texas, Virginia, and Washington. As of September 9, 2010, the company operated 184 schools.

The company's schools are operated under the Chesterbrook Academy, Merryhill School, Discovery Isle Child Development Center, Enchanted Care Learning Center, Camelback Desert Schools, The Honor Roll School, Camp Zone, Paladin Academy, Rocking Horse Child Care Centers, Southern Highlands Preparatory School, Montessori

Corner, HighPointe Children's Academy, Houston Learning Academy, and Laurel Springs School.

School Operations

Private Pay Schools

General Education Schools

The company operates preschools that are generally clustered in geographic areas. It also operates brick and mortar schools which typically start at kindergarten and may go through grade 8. The company's schools also offer athletic activities and supplemental programs, which include day field trips coordinated with its curriculum to zoos, libraries, museums and theaters and, at the middle schools, overnight trips to such places as national parks and historical locations, and select summer trips to European destinations. The company also organizes programs that allow students to present to community groups and organizations. To improve the child's physical, social, emotional and intellectual growth, schools may provide extra-curricular experiences (some fee-based) tailored to particular families' interests. These activities include dance, gymnastics, instrumental music lessons and computer-based technology programs. Additionally, students expand their horizons through participation in science fairs, drama clubs and local and regional academic competitions.

Laurel Springs Distance Learning and Online College Prep K-12

In September, 2009, the company Acquired Laurel Springs School, a K-12 distance learning private school. Curriculum is delivered to students via text, online and through project-based learning symposiums. Laurel Springs' students are supported by teachers and staff who work with students on a one-to-one basis. Laurel Springs focuses on the college prep student who wishes to grow and excel academically and personally.

Competition

The company competes with Knowledge Learning Corp., Bright Horizons Family Solutions, Inc. and Mini-Skools, Challenger Schools, and Learning Care Group.

History

Nobel Learning Communities, Inc. was founded in 1974.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
